

# **BARRELS FOR SIG P365 9MM - BROWNELLS BRN PISTOL BARREL FOR SIG P365, 9MM, THREAD, BLACK NITRIDE**

[Handgun Parts](#) > [Barrel Parts](#) > [Barrels](#)

A Premium Barrel To Maximize the Performance of Your Sig P365 The Sig P365 is an outstanding EDC / CCW / personal defense pistol. It's not designed to punch the tightest groups on paper targets - but it has a lot more accuracy potential than folks may think. Drop in our Match-Grade Barrel for the Sig P365 and find out just how much more accuracy your P365 is ready to give you! What makes our Sig P365 barrel match-grade is the way it's machined from hardened 416R stainless steel to precise dimensions for a tight lockup and long service life. Installation should be a straight drop-in deal on most guns. The extra-hard Black Nitride finish resists surface wear and stops in its tracks whatever corrosion might try to challenge the stainless steel. Ahead of the 9mm Luger (9x19mm) chamber is a button-rifled bore with standard, 1-10" right-hand, 6-groove rifling. Fits Sig P365 Only 416R Stainless Steel Black Nitride Finish Button-Rifled, 1-10" Twist Threaded Model has 1/2"-28 tpi Our Match-Grade Barrel for the Sig P365 is available with your choice of a Plain muzzle or Threaded (1/2"-28 tpi) to enable installation of a compensator or sound suppressor. Both are laser engraved with the chambering and the Sig model they fit.

# Safety Instruction Guide for BARRELS FOR SIG P365 9MM

## Introduction

Thank you for choosing the BARRELS FOR SIG P365 9MM from BROWNELLS. This premium barrel is designed to enhance the performance of your Sig P365 pistol. To ensure your safety and the optimal use of this product, please read and follow the safety instructions outlined in this guide.

## General Safety Guidelines

- Always handle firearms with care and treat every firearm as if it is loaded.
- Ensure that you are familiar with local laws and regulations regarding firearm ownership and modifications.
- Store the barrel and all firearms in a secure location, out of reach of children and unauthorized users.
- Regularly inspect your barrel for any signs of wear or damage.
- Use only the specified ammunition (9 mm Luger) with this barrel.
- If you experience any malfunctions or issues, cease use immediately and consult a qualified gunsmith.

## Specific Safety Precautions for Use

- Do not attempt to modify or alter the barrel in any way, as this may compromise safety and performance.
- Ensure the firearm is unloaded before installing or removing the barrel.
- Always wear appropriate eye and ear protection when using firearms.
- Be aware of your surroundings and ensure that your shooting area is safe and free of obstructions.
- Only use the barrel with the Sig P365 model; using it with other models may pose safety risks.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure the Sig P365 is unloaded and pointed in a safe direction.
- Remove the current barrel from the firearm according to the manufacturer's instructions.
- Align the new BARRELS FOR SIG P365 9MM with the slide and insert it into the frame.
- Ensure that the barrel is seated properly and locked into place.
- Reassemble the firearm according to the manufacturer's instructions.

### 2. Usage:

- After installation, perform a function check to ensure the firearm operates correctly.
- Test the firearm in a safe environment, starting with small amounts of ammunition to ensure proper function.
- Monitor for any unusual sounds or malfunctions during use.

## Disposal Instructions

- Dispose of the barrel in accordance with local laws and regulations regarding firearm components.
- If the barrel is damaged or worn beyond safe use, do not attempt to repair it. Instead, consult a qualified professional for proper disposal.

## **Contact Information for Further Support**

For any inquiries regarding safety, installation, or product performance, please consult your retailer or a qualified gunsmith.
