

# ELASTIC HOOK & LOOP CUMMERBUND - SPIRITUS SYSTEMS

## ELASTIC HOOK & LOOP CUMMERBUND (SIZE 1) - WOODLAND

[Home](#)

Assault Panel Core The Assault Panel Core was designed to be a multi-mission back panel attachment to your LV-119 OVERT Rear Plate Bag. We designed the Panel to fill a spectrum of needs ranging from a light weight Assault Panel, to a more robust Pack Panel. The panel is both expandable and modular and can accommodate a plethora of equipment to meet almost any operational need. The Assault Panel Core attaches to your LV-119 Rear Plate Bag using a combination of 6 directional snaps, and 2 full length zippers. It also utilizes two stabilizers that route inside of the Rear Plate Bag if the Panel is used in "Configuration 2 or 3" listed below. The Panel has a removable flap system that allows the user to configure the upper half of the Panel to meet their mission needs. (Flaps are sold separately, the Assault Panel Core does NOT come with a flap.) This eliminates the need to have multiple panels and allows for quicker donning and doffing of mission essential equipment. NOTE: This LV/119 Cummerbund is designed for use with a front and rear LV/119 plate bag. The 5-Inch Elastic Cummerbund is a simple and effective solution for professionals who need to carry and have rapid access to additional ammunition and equipment on their sides while still maintaining a low profile. Side loading is great for ground vehicle and low visibility operations. Elastic cells are 3 inches wide and are built around standard 5.56 Magazines, such as the PMAG. Elastic cummerbunds prevent user fatigue while worn for long durations, as they stretch with the body during active maneuvers. By using 5-Inch Elastic, we allow for the stable carriage of taller items as they are held more securely. The sewn-on pull tabs allow for the use of the Bungee Retention Kit to securely hold items for HALO, OTB, or other kinetic operations. The tabs also allow users to pull on the cell and make it easier to load and extract equipment. The Elastic Hook & Loop Cummerbund features premium, Berry Amendment Compliant materials sourced from industry leaders in textiles manufacturing. It offers superior construction processes, including triple stitching on the elastic cells to prolong life and prevent cell failure when stuffed with non standard or oddly shaped items. Cummerbund Attachment The cummerbund attachment is a proprietary system that allows for the use of all of Spiritus Systems cummerbunds, as well as allowing for a wide range of adjustment. The cummerbund attaches inside the plate bag, which is advantageous for a few reasons. There is no external mounting that can get snagged or rip off when exiting vehicles in haste. The design creates a smooth profile when worn underneath clothing. Hook & Loop is not utilized as an attachment method on the rear plate bag. Hook & Loop wears out over time and is a generally less-than-optimal attachment method when not supported in other ways. Hook & Loop doesn't handle weight well and it sticks to everything, especially cloth seats. SIZING The cummerbund comes in two sizes: Size 1 and Size 2, each offering up to 14 inches of total adjustment. This allows for a proper fitment for all body types. To figure our appropriate sizing, take measurement of the waist at the belly button. When measuring, users should dress as they would while actually wearing the carrier. For example, if the user is operating in arctic environments, they should be wearing cold weather equipment when measuring. Size 1: 28" to 42" Size 2: 40" to 54" SOLD AS A SET. If your waist measurement is 42", we suggest going up to the Size 2 cummerbund. NOTE: The LV119 Cummerbund is part of the LV119 Plate Carrier System. This item does not include a Front Plate Bag, Rear Plate Bag,

Shoulder Covers, Placards, or any other accessories. Additional components are required for proper use. Some images shown with optional accessories, sold separately.

## Attributes

- Name: [SPIRITUS SYSTEMS ELASTIC HOOK & LOOP CUMMERBUND \(SIZE 1\) - WOODLAND](#)
- Manufacturer: [SPIRITUS SYSTEMS](#)
- Product no.: 430101898
- Mfr. No.: PC-EV-WD-S1
- Colour: Woodland
- Delivery weight: 0.272kg
- Shipping height: 38mm
- Shipping width: 165mm
- Shipping length: 229mm

# Safety Instruction Guide for ELASTIC HOOK & LOOP CUMMERBUND

## Introduction

Thank you for choosing the ELASTIC HOOK & LOOP CUMMERBUND by Spiritus Systems. This product is designed for optimal performance in various operational settings while ensuring user safety. Please read this guide carefully to understand the safety precautions, installation, usage instructions, and disposal methods associated with this product.

## General Safety Guidelines

- **Product Safety:** Ensure safe use of the cummerbund by following all instructions provided in this guide. This product is designed to meet safety standards applicable to nonfood items.
- **Enhanced Recalls:** Stay informed about any product recalls. The manufacturer will provide standardized recall notices and remedies if necessary.
- **Online Shopping:** If purchased online, ensure that the retailer complies with safety requirements similar to those of physical stores.
- **Special Consumer Focus:** This product is not intended for use by children. Keep out of reach of minors to avoid potential hazards.
- **EU Contact Point:** For safety inquiries, please consult the manufacturer's contact point in the EU.
- **Rapid Alerts:** Monitor the EU Safety Gate platform for updates on unsafe products.

## Specific Safety Precautions for Use

- **Proper Fit:** Measure your waist accurately at the belly button to ensure the correct size (Size 1: 28" to 42", Size 2: 40" to 54"). A proper fit is essential for safety and comfort.
- **Wearing Conditions:** Dress as you would during actual use when measuring for size. For example, wear cold weather gear if operating in arctic environments.
- **Avoid Overloading:** Do not exceed the recommended capacity of the cummerbund to prevent failure or injury.
- **Check for Damage:** Regularly inspect the cummerbund for wear and tear. Do not use if any part is damaged.
- **Securely Attach:** Ensure the cummerbund is properly attached to the LV119 Rear Plate Bag using the provided snaps and zippers.
- **Use Caution with Hook & Loop:** Avoid using Hook & Loop as an attachment method on the rear plate bag, as it may wear out over time and may not support heavy loads effectively.

## Instructions for Installation and Usage

### 1. Installation of the Cummerbund:

- Open the LV119 Rear Plate Bag.
- Locate the designated areas inside the plate bag for cummerbund attachment.
- Attach the cummerbund using the 6 directional snaps and 2 fulllength zippers, ensuring a secure fit.
- For "Configuration 2 or 3," route the stabilizers inside the Rear Plate Bag as instructed.

### 2. Adjusting the Fit:

- Once installed, adjust the cummerbund to fit your waist size. The cummerbund allows for up to 14 inches of total adjustment.
- Ensure that the cummerbund is snug but comfortable, allowing for movement without restriction.

### 3. Using the Cummerbund:

- Place any equipment or ammunition in the elastic cells, ensuring they are secured.
- Use the sewnon pull tabs for easy access to items stored in the cummerbund.
- Be mindful of the cummerbund's elasticity, which helps prevent user fatigue during prolonged wear.

### 4. Removing the Cummerbund:

- To remove, carefully detach the snaps and zippers without pulling forcefully.
- Store the cummerbund in a dry and safe place when not in use.

## Disposal Instructions

- **Environmental Responsibility:** Dispose of the cummerbund responsibly. Do not throw it in regular waste.
- **Recycling:** Check local regulations for recycling options for textile products. Some components may be recyclable.
- **Hazardous Materials:** If the product shows signs of wear and contains materials that may be hazardous, consult local disposal guidelines.

## Contact Information for Further Support

For any inquiries or concerns regarding the ELASTIC HOOK & LOOP CUMMERBUND, please refer to the manufacturer's contact point in the EU. Ensure to have your product details ready for reference.

By following these safety instructions, you can ensure the safe use of the ELASTIC HOOK & LOOP CUMMERBUND and enhance your operational effectiveness. Thank you for your attention to safety.
