

# ELASTIC HOOK & LOOP CUMMERBUND (SIZE 2) - MULTICAM ARID

[Home](#)

Assault Panel Core The Assault Panel Core was designed to be a multi-mission back panel attachment to your LV-119 OVERT Rear Plate Bag. We designed the Panel to fill a spectrum of needs ranging from a light weight Assault Panel, to a more robust Pack Panel. The panel is both expandable and modular and can accommodate a plethora of equipment to meet almost any operational need. The Assault Panel Core attaches to your LV-119 Rear Plate Bag using a combination of 6 directional snaps, and 2 full length zippers. It also utilizes two stabilizers that route inside of the Rear Plate Bag if the Panel is used in "Configuration 2 or 3" listed below. The Panel has a removable flap system that allows the user to configure the upper half of the Panel to meet their mission needs. (Flaps are sold separately, the Assault Panel Core does NOT come with a flap.) This eliminates the need to have multiple panels and allows for quicker donning and doffing of mission essential equipment. NOTE: This LV/119 Cummerbund is designed for use with a front and rear LV/119 plate bag. The 5-Inch Elastic Cummerbund is a simple and effective solution for professionals who need to carry and have rapid access to additional ammunition and equipment on their sides while still maintaining a low profile. Side loading is great for ground vehicle and low visibility operations. Elastic cells are 3 inches wide and are built around standard 5.56 Magazines, such as the PMAG. Elastic cummerbunds prevent user fatigue while worn for long durations, as they stretch with the body during active maneuvers. By using 5-Inch Elastic, we allow for the stable carriage of taller items as they are held more securely. The sewn-on pull tabs allow for the use of the Bungee Retention Kit to securely hold items for HALO, OTB, or other kinetic operations. The tabs also allow users to pull on the cell and make it easier to load and extract equipment. The Elastic Hook & Loop Cummerbund features premium, Berry Amendment Compliant materials sourced from industry leaders in textiles manufacturing. It offers superior construction processes, including triple stitching on the elastic cells to prolong life and prevent cell failure when stuffed with non standard or oddly shaped items. Cummerbund Attachment The cummerbund attachment is a proprietary system that allows for the use of all of Spiritus Systems cummerbunds, as well as allowing for a wide range of adjustment. The cummerbund attaches inside the plate bag, which is advantageous for a few reasons. There is no external mounting that can get snagged or rip off when exiting vehicles in haste. The design creates a smooth profile when worn underneath clothing. Hook & Loop is not utilized as an attachment method on the rear plate bag. Hook & Loop wears out over time and is a generally less-than-optimal attachment method when not supported in other ways. Hook & Loop doesn't handle weight well and it sticks to everything, especially cloth seats. SIZING The cummerbund comes in two sizes: Size 1 and Size 2, each offering up to 14 inches of total adjustment. This allows for a proper fitment for all body types. To figure our appropriate sizing, take measurement of the waist at the belly button. When measuring, users should dress as they would while actually wearing the carrier. For example, if the user is operating in arctic environments, they should be wearing cold weather equipment when measuring. Size 1: 28" to 42" Size 2: 40" to 54" SOLD AS A SET. If your waist measurement is 42", we suggest going up to the Size 2 cummerbund. NOTE: The LV119 Cummerbund is part of the LV119 Plate Carrier System. This item does not include a Front Plate Bag, Rear Plate Bag, Shoulder Covers, Placards, or any other accessories. Additional components are required for proper use. Some images shown with optional accessories,

sold separately.

## Attributes

- Name: [ELASTIC HOOK & LOOP CUMMERBUND \(SIZE 2\) - MULTICAM ARID](#)
- Manufacturer: [SPIRITUS SYSTEMS](#)
- Product no.: 430101900

# Safety Instructions for ELASTIC HOOK & LOOP CUMMERBUND (SIZE 2) MULTICAM ARID

## Introduction

Thank you for choosing the ELASTIC HOOK & LOOP CUMMERBUND (SIZE 2) MULTICAM ARID. This product is designed to enhance your operational capabilities while ensuring safety and comfort. Please read this safety instruction guide carefully to ensure proper use and maintenance of the product.

## General Safety Guidelines

- Ensure that the cummerbund is used only for its intended purpose as described in the product documentation.
- Regularly inspect the cummerbund for any signs of wear, damage, or deterioration before each use.
- Do not overload the cummerbund beyond its designed capacity, as this may compromise safety and performance.
- Keep the cummerbund away from sharp objects or extreme heat sources to prevent damage to the elastic and hook & loop materials.
- Store the cummerbund in a cool, dry place away from direct sunlight when not in use.
- If you experience any discomfort while wearing the cummerbund, remove it immediately and seek assistance.

## Specific Safety Precautions for Use

- Ensure that the cummerbund is properly fitted to your waist size before use. Refer to the sizing guidelines provided in the product documentation.
- When using the cummerbund in conjunction with other equipment, ensure that all components are compatible and do not interfere with each other.
- Avoid using the cummerbund in situations where it could become entangled with machinery or other equipment.
- Be aware of your surroundings when wearing the cummerbund, especially in low visibility environments.
- Children and vulnerable individuals should not use the cummerbund without adult supervision.

## Instructions for Installation and Usage

### 1. Sizing and Fitting

- Measure your waist at the belly button while wearing the clothing you intend to use with the cummerbund.
- Choose the appropriate size:
  - Size 1: 28" to 42"
  - Size 2: 40" to 54"
- If your waist measurement is at the upper end of a size range, it is recommended to select the next size up.

### 2. Attaching the Cummerbund

- The cummerbund attaches inside the LV119 Rear Plate Bag.
- Ensure that the cummerbund is securely fastened to avoid any movement during use.
- Adjust the cummerbund for a snug fit, allowing for comfort and mobility.

### 3. Using the Cummerbund

- Load the elastic cells with standard 5.56 magazines or other compatible items.
- Use the sewnon pull tabs for easy access to your equipment.
- Be mindful of the weight distribution when loading items into the cummerbund to maintain balance.

#### **4. Removing the Cummerbund**

- To remove the cummerbund, unfasten it carefully from the plate bag.
- Store the cummerbund properly to maintain its shape and integrity.

## **Disposal Instructions**

- Dispose of the cummerbund in accordance with local regulations regarding textile waste.
- If the cummerbund is damaged or no longer usable, please ensure it is disposed of in a manner that prevents it from being reused inappropriately.

## **Contact Information for Further Support**

For any inquiries or concerns regarding the ELASTIC HOOK & LOOP CUMMERBUND, please refer to the manufacturer's contact information provided with the product packaging.

By adhering to these safety instructions, you can ensure a safe and effective use of the ELASTIC HOOK & LOOP CUMMERBUND (SIZE 2) MULTICAM ARID. Thank you for your commitment to safety and operational readiness.
