

SLIDE BUILD KITS FOR GLOCK 17® - SLIDE BUILD KIT FOR GLOCK 17 THREADED

[Handgun Parts](#) > [Slide Parts](#) > [Slides](#)

The perfect set to build your own Glock 17~. Choose from the Brownells threaded on non-threaded barrels as well as a standard slide or a windowed slide. All sets come with an RMR Cut Slide, Barrel, RMR Plate, Sights, and a Parts Kit to finish out the slide for your build! The limited production Brownells Brown RMR Slide for Glock® 17 Gen3 pistols features a pre-cut slot for easy, secure, low-profile mounting of a Trijicon RMR or Holosun red dot sight. Up front, there are distinctive, cocking serrations that aid in manipulating the slide to check the chamber or clear a jam. And we'll admit it: the serrations just look cool, too. All RMR Slides also have standard Glock® factory front and rear sight dovetails for "iron" sights. To get proper co-witnessing with the RMR, you will need to also install suppressor-height iron sights. These limited production Brownells Brown slides for the Glock® 17 Gen3 come with a "window" cutout on top between the front serrations that enhances airflow to keep the barrel cooler - ideal for hard-working action competition pistols. Plus, if you have an upgraded barrel with a contrasting finish or a unique exterior pattern (fluting, spirals, "flames," etc.) the window lets you show it off a bit! A Brownells RMR Slide is the ideal upgrade for your factory Glock® 17 Gen3 OR the perfect "top half" for a brand-new custom gun built on a Polymer80 80% frame. Fits Gen3 Glock® 17 pistols & clones Built-in Trijicon RMR mounting slot Also accepts Holosun HE508T, HS507C & HS407C red dot sights Factory front/rear iron sight cuts, too Machined from corrosion-resistant 17-4 stainless steel billet Each RMR Slide for Glock® starts life as a billet of 17-4 stainless steel that is machined to Glock® factory specifications inside, so it'll accept factory or aftermarket barrels and internal parts. Each slide is heat-treated to Rc 41-44 on the Rockwell C scale for added surface hardness and wear resistance. The Brownells Brown slide is a limited production and once they are gone, they're gone. Brownells Gun Tech™ Note: Channel liner required for these slides. Channel liner is a press fit and requires a tool to install. We recommend #777-100-017. Includes patented optic cut technology pioneered by ZEV Technologies. Patent No. RE47335 Our Match-Grade Barrel for the Glock® 17 fits ALL generations of G17, Gen1 through Gen5. It's an excellent replacement for a shot-out factory barrel or for completing a pistol based on the G17 platform. And it's the ideal tube for a custom gun built on a Polymer80 frame with a Brownells RMR Slide on top! Each Brownells Match-Grade Barrel for Glock® 17 is machined from hardened 416R stainless steel to precise dimensions, so it's a drop-in fit on most guns. The tight lockup helps ensure superb accuracy, too. The extra-hard Black Nitride finish resists surface wear and stops in its tracks whatever corrosion might try to challenge the stainless steel. This 9mm Luger (9x17mm) chambered barrel is button-rifled with standard, 1-10" right-hand, 6-groove rifling that is compatible with "practice" ammo with non-jacketed bullets. Fits Glock® 17 Gen1 thru Gen5 Button-rifled 1-10" twist 416R stainless steel Non-reflective Black Nitride anti-corrosion finish Threaded model available with 1/2"-28 tpi threads Our match barrel for Glock® 17 is available with either a Plain muzzle with an 11-degree target crown or Threaded (1/2"-28 tpi) to enable installation of a compensator or sound suppressor. Both are laser-engraved with the chambering and the Glock model it fits.

Attributes

- Name: SLIDE BUILD KIT FOR GLOCK 17 THREADED
- Manufacturer: BROWNELLS
- Product no.: 430102125
- Mfr. No.: NONE
- Cartridge: 9 mm Luger
- Finish: Black
- Make: Glock
- Model: 17
- Sights: RMR
- Style: Kit
- Delivery weight: 0.531kg

Safety Instruction Guide for SLIDE BUILD KITS FOR GLOCK 17®

Introduction

Thank you for choosing the SLIDE BUILD KITS FOR GLOCK 17®. This product is designed to enhance your shooting experience while ensuring safety and compliance with the EU General Product Safety Regulation (GPSR). This guide provides essential safety instructions, usage precautions, and disposal information to help you use the product safely and effectively.

General Safety Guidelines

- Ensure that you read and understand all instructions before using the product.
- Keep this product out of reach of children and vulnerable individuals.
- Regularly check for updates regarding product recalls on the EU Safety Gate platform.
- Report any unsafe products or accidents to the relevant authorities.
- Always use the product in accordance with the manufacturer's guidelines to minimize risks.

Specific Safety Precautions for Use

- Always wear appropriate eye and ear protection when handling or firing firearms.
- Ensure that the firearm is unloaded before assembling or disassembling parts.
- Avoid using the product in wet or damp conditions to prevent corrosion and damage.
- Inspect all components for damage or wear before use. If any part appears defective, do not use it.
- Be aware of your surroundings and ensure that you are in a safe environment when using the firearm.
- Use only compatible parts as specified in the product description to avoid malfunctions.
- Follow all local laws and regulations regarding firearm modifications and usage.

Instructions for Installation and Usage

Installation Instructions

1. **Gather Required Tools:** Before you begin, ensure you have all necessary tools, including a channel liner installation tool (recommended #777100017).
2. **Prepare the Workspace:** Work in a clean, dry area free of distractions.
3. **Disassemble the Firearm:** Ensure the firearm is unloaded and disassemble it according to the manufacturer's instructions.
4. **Install the Channel Liner:**
 - Use the channel liner installation tool to press fit the channel liner into the slide.
 - Ensure it is securely installed to avoid any issues during use.
5. **Attach the RMR Slide:**
 - Align the RMR Slide with the mounting slot on the Glock 17 frame.
 - Securely fasten the slide according to the provided specifications.
6. **Install the Barrel:**
 - Insert the matchgrade barrel into the slide, ensuring it fits snugly.
 - Follow the manufacturer's guidelines for securing the barrel.
7. **Attach Sights:**
 - Install the appropriate sights as per your preference.
 - Ensure they are properly aligned for accurate shooting.

Usage Instructions

- Always ensure the firearm is in a safe condition before handling.
- Load ammunition only when ready to shoot.
- Follow standard firearm safety practices, including keeping the muzzle pointed in a safe direction.
- If using the RMR or Holosun red dot sights, ensure they are correctly calibrated for accuracy.
- Regularly clean and maintain your firearm and components to ensure optimal performance and safety.

Disposal Instructions

- Dispose of any unused or damaged parts in accordance with local regulations.
- Do not throw away hazardous materials in regular household waste.
- Contact your local waste management authority for proper disposal methods for firearm components.
