

NECK TENSION GAGE TOOL - FORSTER PRODUCTS, INC. 6MM/243 CALIBER NECK TENSION GAGE

[Reloading](#) > [Measuring Tools](#) > [Case Gauges & Headspace Tools](#)

Use the Neck Tension Gage (NTG) as an inspection tool to quickly and accurately screen/sort a batch of brass before your bullet seating operation. The NTG provides reloaders with the information needed to create exacting neck tensions during the bullet seating operation. Use after case neck sizing and before bullet seating to help determine optimal inside neck diameter for consistent release of a bullet from your reloaded rounds. Allows for inspection of the inside diameters of case necks to be sure a "donut" has not formed at the neck-shoulder junction. Available in five calibers, the NTG Neck Tension Gage Inspection Tool consists of four stepped diameters that increase in size until reaching the handle. Each diameter is etched on the metal tool. Simply insert the stepped end of the tool into the neck of your sized case, sliding it in until one of the diameters achieves a slip fit in the case neck. Use the resulting value to fine-tune your case preparation. Kit comes with all 5 calibers.

NECK TENSION GAGE TOOL SAFETY INSTRUCTIONS

Introduction

Thank you for choosing the NECK TENSION GAGE TOOL from Forster Products, Inc. This tool is designed to assist reloaders in achieving precise neck tensions for their reloaded rounds. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

General Safety Guidelines

- Ensure that this tool is used only for its intended purpose.
- Keep the tool out of reach of children and vulnerable individuals.
- Always inspect the tool for any damage before use.
- Do not use the tool if it is damaged or malfunctioning.
- Follow all local laws and regulations regarding the use of reloading tools and materials.

Specific Safety Precautions for Use

- Always wear appropriate safety gear, including safety glasses, when using the tool.
- Handle all brass cases with care to avoid injury from sharp edges.
- Use the tool in a welllit area to ensure clear visibility of markings and measurements.
- Avoid applying excessive force when inserting the tool into the case neck to prevent damage to the tool and the case.
- Ensure that the tool is clean and free from debris before and after each use.

Instructions for Installation and Usage

1. Preparation:

- Ensure that the brass cases are properly sized before using the Neck Tension Gage Tool.
- Select the appropriate caliber from the kit (available in five calibers, including .243).

2. Using the Tool:

- Hold the tool by the handle and insert the stepped end into the neck of the sized case.
- Slide the tool in gently until one of the diameters achieves a slip fit in the case neck.
- Note the diameter that fits and use this measurement to adjust your case preparation as needed.

3. PostUse Care:

- Clean the tool after each use to maintain its accuracy and longevity.
- Store the tool in a safe, dry place away from direct sunlight and moisture.

Disposal Instructions

- Dispose of the tool in accordance with local regulations.
- If the tool is no longer usable, consider recycling components where possible.

Contact Information for Further Support

For any inquiries or concerns regarding the NECK TENSION GAGE TOOL, please refer to your point of purchase or the manufacturer's website for additional support resources.

Thank you for your attention to these safety instructions. Enjoy using your NECK TENSION GAGE TOOL responsibly and safely!
