

# NECK TENSION GAGE TOOL - FORSTER PRODUCTS, INC. 7MM/284 CALIBER NECK TENSION GAGE

[Reloading](#) > [Measuring Tools](#) > [Case Gauges & Headspace Tools](#)

Use the Neck Tension Gage (NTG) as an inspection tool to quickly and accurately screen/sort a batch of brass before your bullet seating operation. The NTG provides reloaders with the information needed to create exacting neck tensions during the bullet seating operation. Use after case neck sizing and before bullet seating to help determine optimal inside neck diameter for consistent release of a bullet from your reloaded rounds. Allows for inspection of the inside diameters of case necks to be sure a "donut" has not formed at the neck-shoulder junction. Available in five calibers, the NTG Neck Tension Gage Inspection Tool consists of four stepped diameters that increase in size until reaching the handle. Each diameter is etched on the metal tool. Simply insert the stepped end of the tool into the neck of your sized case, sliding it in until one of the diameters achieves a slip fit in the case neck. Use the resulting value to fine-tune your case preparation. Kit comes with all 5 calibers.

# NECK TENSION GAGE TOOL SAFETY INSTRUCTIONS

## Introduction

Thank you for choosing the NECK TENSION GAGE TOOL by Forster Products, Inc. This tool is designed to assist reloaders in achieving precise neck tensions during the bullet seating operation. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

## General Safety Guidelines

- Ensure that the tool is used in accordance with the manufacturer's instructions.
- Always inspect the tool before use for any signs of damage or wear.
- Keep the tool out of reach of children and unauthorized users.
- Use the tool in a welllit area and ensure your workspace is clean and organized.
- Do not use the tool for any purpose other than its intended use.
- Report any unsafe products or incidents to the relevant authorities.

## Specific Safety Precautions for Use

- Always wear appropriate safety gear, such as safety glasses, when using the tool.
- Handle brass cases carefully to avoid injury from sharp edges.
- Do not force the tool into the case neck; if it does not fit, reevaluate the case preparation.
- Avoid using the tool on cases that show signs of excessive wear or damage.
- Store the tool in a safe place after use to prevent accidental injury.

## Instructions for Installation and Usage

### 1. Preparation

- Ensure the brass cases are properly sized before using the Neck Tension Gage Tool.
- Select the appropriate caliber from the five available calibers (284/7 mm).

### 2. Using the Tool

- Hold the tool by the handle.
- Insert the stepped end of the tool into the neck of the sized case.
- Slide the tool into the neck until one of the diameters achieves a slip fit.
- Note the diameter that fits; this value will help you finetune your case preparation.

### 3. PostUse Care

- Clean the tool after use to maintain its accuracy and longevity.
- Store the tool in its designated case or location to prevent damage.

## Disposal Instructions

- Dispose of the tool in accordance with local waste disposal regulations.
- If the tool is damaged beyond repair, ensure it is disposed of safely to prevent injury.

## **Contact Information for Further Support**

For any questions or concerns regarding the NECK TENSION GAGE TOOL, please consult the manufacturer's website or customer service for assistance.

By following these guidelines, you can ensure a safe and effective experience while using the NECK TENSION GAGE TOOL. Thank you for your attention to safety, and happy reloading!
