

NECK TENSION GAGE TOOL - FORSTER PRODUCTS, INC. 30 CALIBER NECK TENSION GAGE

[Reloading](#) > [Measuring Tools](#) > [Case Gauges & Headspace Tools](#)

Use the Neck Tension Gage (NTG) as an inspection tool to quickly and accurately screen/sort a batch of brass before your bullet seating operation. The NTG provides reloaders with the information needed to create exacting neck tensions during the bullet seating operation. Use after case neck sizing and before bullet seating to help determine optimal inside neck diameter for consistent release of a bullet from your reloaded rounds. Allows for inspection of the inside diameters of case necks to be sure a “donut” has not formed at the neck-shoulder junction. Available in five calibers, the NTG Neck Tension Gage Inspection Tool consists of four stepped diameters that increase in size until reaching the handle. Each diameter is etched on the metal tool. Simply insert the stepped end of the tool into the neck of your sized case, sliding it in until one of the diameters achieves a slip fit in the case neck. Use the resulting value to fine-tune your case preparation. Kit comes with all 5 calibers.

Attributes

NECK TENSION GAGE TOOL SAFETY INSTRUCTIONS

Introduction

Thank you for choosing the NECK TENSION GAGE TOOL by Forster Products, Inc. This tool is designed to assist reloaders in achieving precise neck tensions for optimal bullet seating. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Keep the tool out of reach of children and vulnerable individuals.
- Inspect the tool for any damage before use. Do not use if damaged.
- Store the tool in a safe, dry place when not in use.
- Follow all local laws and regulations regarding the use of reloading tools and ammunition.
- In case of any accidents or unsafe incidents, report them to the appropriate authorities.

Specific Safety Precautions for Use

- Always wear protective eyewear when using the tool to prevent eye injuries.
- Handle the tool with care to avoid cuts or injuries from sharp edges.
- Ensure that the case neck is free from debris before using the tool.
- Do not force the tool into the case neck; if it does not fit, check for sizing issues.
- Use the tool in a welllit area to ensure visibility and accuracy.
- Avoid using the tool while distracted or under the influence of substances.

Instructions for Installation and Usage

1. Preparation:

- Ensure that you have a properly sized case ready for inspection.
- Verify that the NECK TENSION GAGE TOOL is clean and free of debris.

2. Using the Tool:

- Hold the tool by the handle and align the stepped end with the neck of the case.
- Gently insert the stepped end into the neck of the sized case.
- Slide the tool in until one of the diameters achieves a slip fit in the case neck.
- Take note of the diameter that fits snugly, as this will help you finetune your case preparation.

3. PostUse:

- After use, clean the tool to remove any brass residue.
- Store the tool in its designated case or a safe location.

Disposal Instructions

- Dispose of the tool responsibly at the end of its life cycle.
- Follow local regulations for disposal of metal products.
- Do not dispose of the tool in regular household waste.

Contact Information for Further Support

For any inquiries or concerns regarding the NECK TENSION GAGE TOOL, please refer to the contact details provided with your product packaging.

By following these safety guidelines and instructions, you can ensure a safe and effective reloading experience with the NECK TENSION GAGE TOOL. Thank you for your attention to safety!
