

FFT LONG ACTION STOCK - CHRISTENSEN ARMS FFT STOCK FOR LA VARMINT CONTOUR REMINGTON 700 CARBON/GRAY

[Rifle Parts](#) > [Stock Parts](#) > [Rifle Stocks](#)

Utilizing an Aerospace monocoque shell, Flash Forged Technology eliminates unnecessary internal weight. The result is an FFT-designed stock that is up to a full pound lighter than traditionally manufactured carbon fiber composite rifle stocks – creating a more consistent shooting foundation while reducing user fatigue in the field. Flash Forged Technology is available exclusively on select Christensen Arms firearms. For long action Rem 700 footprint only; Varmint or Sporter contour profile barrel channel. Stock includes stainless steel pillars, and sling studs.

Safety Instruction Guide for FFT Long Action Stock by Christensen Arms

Introduction

Thank you for choosing the FFT Long Action Stock by Christensen Arms. This guide provides essential safety information and instructions to ensure the proper use and maintenance of your product. Please read this guide carefully before using the stock to enhance your shooting experience safely.

General Safety Guidelines

- Ensure safe use of the FFT stock by following all instructions and guidelines.
- Always inspect the stock for any signs of damage before use.
- Keep the stock out of reach of children and vulnerable individuals.
- Use the stock only with compatible firearms as specified in the product description.
- Follow all local laws and regulations regarding firearm usage and storage.

Specific Safety Precautions for Use

- **Compatibility:** This stock is designed specifically for long action Remington 700 rifles with Varmint or Sporter contour profile barrel channels. Using it with incompatible models may result in safety hazards.
- **Weight Limit:** The stock is designed to reduce user fatigue; however, ensure that you can safely handle the weight of your complete firearm setup.
- **Installation:** Improper installation may compromise safety and performance. Follow installation instructions carefully.
- **Sling Use:** When attaching slings, ensure they are securely fastened to prevent accidental detachment during use.
- **Environmental Conditions:** Avoid using the stock in extreme weather conditions that may affect performance.

Instructions for Installation and Usage

1. Preparation:

- Gather the necessary tools, including a screwdriver and any specific tools required for your firearm model.
- Ensure a clean workspace free from distractions.

2. Installation Steps:

- Remove the existing stock from your Remington 700 rifle according to the manufacturer's instructions.
- Align the FFT stock with the action of the rifle, ensuring that it fits snugly.
- Securely fasten the stock to the action using the provided stainless steel pillars and screws.
- Attach the sling studs as needed, ensuring they are tight and secure.

3. Usage:

- Once installed, check the stock's stability before firing.
- Maintain a proper shooting stance to ensure control and safety when using the firearm.
- Regularly inspect the stock and attachment points for wear or damage.

Disposal Instructions

- Dispose of the FFT stock in accordance with local regulations.
- Do not dispose of the stock in regular household waste if it contains any hazardous materials.
- Consider recycling options where available.

Contact Information for Further Support

For any safety inquiries or support regarding the FFT Long Action Stock, please refer to the manufacturer's website or contact the designated support line.

Conclusion

Your safety is our priority. By following these guidelines, you can ensure the safe and effective use of your FFT Long Action Stock. Always stay informed about product recalls and safety updates through official channels. Thank you for choosing Christensen Arms.
