

7.62 BOLT CATCH - 7.62MM SERRATED AUGMENTED BOLT CATCH

[Home](#)

ABC/R has finally made its way to 7.62mm, LR308 pattern ARs. ABC/R version 3 features a ledge on top of the upper paddle, and bottom of the lower paddle for increased traction. Due to the non-standard based nature of 7.62mm AR platform, many of 5.56mm ABC/R v3's features would introduce incompatibility issues on 7.62mm ARs. Please note that though the ABC/R v3's upper paddle is angled and tapered, and Forward Controls Design have tested it on upper receivers with a small, oval shaped bolt catch paddle cutout, such as found on DMPS's LR308 upper receiver, the upper corners of ABC/R v3 7.62mm may come in contact with receivers and mar it in two small places inside the cutout. These are cosmetic only, they don't affect the functionality of the bolt catch. For receivers with a generous bolt catch paddle cutout, such as Rainier Arms, Mega, F4 Defense, etc. there is ample clearance for ABC/R v2, 7.62mm. Machined from billet 8620 alloy steel and heat treated with DLC finish. The ABC/R v3 is proudly designed and made in the USA. 7.62mm ABC/R v3 is incompatible with 5.56mm spec AR lower receivers. Please note the ABC/R was not designed for use on 9mm receivers that use Colt 9mm magazines which require a Colt 9mm bolt catch. Incompatibilities: KAC SR25 Armalite AR10B 2A Armament Xanthos PSA PA10 Mega

Safety Instruction Guide for 7.62 BOLT CATCH 7.62MM SERRATED AUGMENTED BOLT CATCH

Introduction

Thank you for choosing the 7.62 BOLT CATCH 7.62MM SERRATED AUGMENTED BOLT CATCH by FORWARD CONTROLS DESIGN. This product is designed to enhance the performance of your 7.62mm LR308 pattern ARs. It is essential to follow the safety guidelines and instructions provided in this document to ensure safe and effective use of the product.

General Safety Guidelines

- Ensure that all components of your firearm are compatible with the 7.62 BOLT CATCH before installation.
- Always handle firearms with care and consider them loaded until proven otherwise.
- Keep the product out of reach of children and unauthorized users.
- Regularly inspect the bolt catch for wear and damage.
- In case of any malfunction or abnormal operation, discontinue use immediately and consult a qualified gunsmith.

Specific Safety Precautions for Use

- The ABC/R v3 is incompatible with 5.56mm spec AR lower receivers. Ensure your lower receiver is suitable before installation.
- This product is not designed for use on 9mm receivers that require a Colt 9mm bolt catch.
- Be aware that the upper corners of the ABC/R v3 may contact the receiver in specific cutouts, which may cause cosmetic marring. This does not affect functionality but should be monitored.
- For receivers with generous bolt catch paddle cutouts, ensure ample clearance is available to avoid any operational issues.

Instructions for Installation and Usage

1. Preparation

- Ensure your workspace is clean and welllit.
- Gather all necessary tools before beginning installation.

2. Installation Steps

- Remove the existing bolt catch from your AR lower receiver.
- Align the ABC/R v3 bolt catch with the bolt catch hole.
- Secure the bolt catch in place using the appropriate screws or pins.
- Verify that the bolt catch operates smoothly without obstruction.

3. Usage Instructions

- Test the bolt catch functionality before using the firearm.
- Ensure that the bolt catch engages and releases the bolt as intended.
- Regularly check the operation of the bolt catch during routine firearm maintenance.

Disposal Instructions

- Dispose of the product in accordance with local regulations and guidelines for metal waste.
- Do not dispose of the product in regular household waste. Instead, contact local waste management

services for proper disposal methods.
