

CARBINE SLING WITH TWO POINT ADJUSTABLE STYLE - FORWARD CONTROLS DESIGN CARBINE SLING, TWO POINT ADJUSTABLE, WOODLAND

[Shooting Accessories](#) > [Slings & Sling Swivels](#) > [Slings](#)

CSF (Carbine Sling, Forward Controls) is a simple 2 point adjustable sling by Forward Controls Design. CSF isn't modeled after or based on any particular sling, though one may say Vickers comes close. Forward Controls Design defined the areas they deemed important and honed in on these. There are only so many ways to make a 2 point adjustable sling, CSF isn't meant to be ground breaking, it is designed to be a hard use sling that is easy and intuitive to operate. Military grade webbing is used for the sling body. There is quick detach buckle on the buttstock or rear end of the sling, oriented in a way the buckle won't pinch the user's finger when he uses it to quickly and easily drop the sling. The quick detach buckle is only on the rear side of the sling, not in front. Total length of 65" (max length, with 100% slack removed in the adjustment loop), with 11" of quick adjustment range via the pull tab, and additional length adjustability in the rear quick release buckle. Proudly designed and made in the USA. NOTE: CSF does not ship with sling swivels. Please do not fully disassemble the CSF, you may not be able to reassemble it once it's taken apart.

Attributes

- Name: [FORWARD CONTROLS DESIGN CARBINE SLING, TWO POINT ADJUSTABLE, WOODLAND](#)
- Manufacturer: [FORWARD CONTROLS DESIGN](#)
- Product no.: 430103583
- Mfr. No.: CSF, WOODLAND (

CARBINE SLING WITH TWO POINT ADJUSTABLE STYLE FORWARD CONTROLS DESIGN CARBINE SLING SAFETY INSTRUCTIONS

Introduction

Thank you for choosing the CARBINE SLING WITH TWO POINT ADJUSTABLE STYLE by Forward Controls Design. This guide provides essential safety instructions to ensure safe usage and maintenance of your product. Please read this document carefully before use.

General Safety Guidelines

- Ensure the sling is used only for its intended purpose.
- Regularly inspect the sling for any signs of wear or damage before each use.
- Do not exceed the maximum length of the sling (65 inches) during adjustments.
- Keep the sling away from children and vulnerable individuals to prevent accidents.
- Always follow the instructions for installation and usage to avoid potential hazards.

Specific Safety Precautions for Use

- **Finger Pinching Hazard:** Be cautious when using the quick detach buckle to avoid pinching your fingers. Ensure your fingers are clear of the buckle when releasing the sling.
- **Improper Use:** Do not use the sling for purposes other than securing a carbine. Misuse may lead to accidents or injuries.
- **Disassembly Warning:** Do not fully disassemble the sling. Reassembly may be difficult or impossible once taken apart.
- **Environmental Considerations:** Avoid exposing the sling to extreme temperatures or harsh chemicals, as these may weaken the materials.

Instructions for Installation and Usage

1. Installation:

- Attach the sling to the designated points on your carbine as per the manufacturer's recommendations.
- Ensure that the quick detach buckle is oriented correctly to prevent pinching when in use.

2. Adjusting the Sling:

- To adjust the length, use the pull tab to quickly modify the sling's length within the 11inch adjustment range.
- After adjusting, ensure the sling is securely fastened before use.

3. Using the Sling:

- When using the sling, ensure that it is properly fitted and adjusted to your body for comfort and safety.
- Practice using the quick detach buckle to become familiar with its operation before engaging in any activity.

Disposal Instructions

- Dispose of the sling responsibly at a recycling facility or according to local regulations regarding textile waste.
- Do not dispose of the sling in regular household waste to minimize environmental impact.

Contact Information for Further Support

For any inquiries or concerns regarding safety or product usage, please contact the manufacturer directly through the provided customer service channels.

Thank you for your attention to these safety instructions. By following these guidelines, you can ensure a safe and enjoyable experience with your CARBINE SLING.
