These 6.5 Creedmoor chambered (DPMS style) barrels are machined from 416R Stainless Steel with a QPQ Corrosion Resistant finish. Premium Black Series 6.5 Creedmoor Barrels are proof fired and MPI tested, ensuring the best in quality and accuracy. 6.5 Creedmoor is the perfect option if you're looking to maximize the accuracy of your .308 platform. Apart from a simple barrel swap, all parts, including the bolt and mag, remain the same as a normal .308 build. The inherently accurate 6.5mm projectile, the increasing amount of off-the-shelf match grade factory 6.5 Creedmoor ammunition, and the extremely soft recoil pulse all combine to create one of the best black rifle options available. Hanson Series Barrels feature Ballistic Advantage's proprietary BA Hanson profile and include a pinned lo-pro gas block. Hanson barrels are not designed to work with aftermarket piston kits.

# Safety Instruction Guide for AR15 Premium Black Series 6.5 Creedmoor Rifle Barrels

## Introduction

Thank you for choosing the AR15 Premium Black Series 6.5 Creedmoor Rifle Barrels. This guide provides essential safety instructions to ensure the safe use and handling of your rifle barrels. Please read this guide carefully and follow all instructions to maximize safety and performance.

## General Safety Guidelines

- Ensure safe handling of the rifle barrels at all times.
- Store the barrels in a secure location, out of reach of children and unauthorized users.
- Always treat every firearm as if it is loaded.
- Use the barrels only with compatible AR15 platforms.
- Regularly inspect the barrels for any signs of damage or wear.
- Follow all local laws and regulations regarding firearm ownership and usage.
- Be aware of your surroundings when handling firearms to prevent accidents.

## Specific Safety Precautions for Use

- Always wear appropriate safety gear, including eye and ear protection, when using the rifle.
- Ensure the rifle is pointed in a safe direction at all times during handling.
- Do not attempt to modify the barrels or use them in ways not intended by the manufacturer.
- Use only highquality, factorymanufactured ammunition that is specifically designed for 6.5 Creedmoor.
- Be cautious of the recoil when firing, as it may vary based on the ammunition used.
- Ensure that the gas system and other components are properly installed and functioning before use.
- Avoid using the barrels in adverse weather conditions that may affect performance.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure the rifle is unloaded and the safety is engaged.
- Remove the existing barrel from the AR15 platform according to the manufacturer's guidelines.
- Install the new AR15 Premium Black Series 6.5 Creedmoor barrel by aligning it with the receiver and tightening it according to the specified torque settings.
- Install the pinned lowprofile gas block securely.
- Check that all components are properly aligned and functioning before proceeding to the next step.

### 2. Usage:

- Load the rifle with compatible 6.5 Creedmoor ammunition.
- Ensure that the rifle is in a safe position before firing.
- Fire the rifle in a controlled manner, maintaining proper stance and grip.
- After use, clean the barrel thoroughly to maintain performance and longevity.

## Disposal Instructions

- Dispose of any damaged or worn barrels according to local regulations.
- Do not discard barrels in regular trash; contact local waste management for proper disposal methods.
- Ensure that all components are rendered inoperable before disposal.
