

MS1 LITE SLINGS - MAGPUL MS1 LITE SLING COYOTE

[Shooting Accessories](#) > [Slings & Sling Swivels](#) > [Slings](#)

The MS1 Lite Sling is a compact version of the versatile MS1 rifle sling. Magpul created a custom woven 1" wide single-ply webbing to drastically reduce extra bulk and offer a high-strength, streamlined sling that avoids snagging. The custom weave resists rolling and twisting, keeping the MS1 Lite consistently comfortable while maintaining the no-pill and anti-chafe characteristics that Magpul slings are known for. The smaller size also allows for easier stowage in tight, snag-prone areas such as cases, racks, and weapon safes. Optimized for minimal bulk while maintaining maximum strength, a more compact MS1 slider was designed specifically for this sling. It provides rapid adjustments to either lengthen or shorten the sling with no slipping once it's set, with no tails, loops, or other potential snag hazards. The MS1 Lite allows easy shoulder transitions, rapid adjustability for hands-free rifle carry, and shooting support from various positions. The MS1 Lite is ideal for lightweight or smaller-form firearms. The MS1 system also has a series of adapters that are sold separately and based on the MS3® and MS4® slings. By adding the appropriate adapter for the sling (such as our Paraclip™, QDM, or QD Sling Swivel), you can easily configure your MS1 for your fit and carry needs. Even with the MS1 Lite's smaller size, Magpul made sure it performs just as well as its larger predecessors. They put it through the same rigorous controlled lab and field tests to ensure it can stand up to the wet, dry, and sandy conditions you encounter when hunting, working, at the range, and everywhere in between. Made in the USA Lightweight with minimal bulk to stow easily Custom anti-chafe, 1" wide, single-ply webbing minimizes rolling and twisting Custom 1" Slider minimizes size and maintains strength Lightweight yet durable hardware made of heavy-duty polymer

Attributes

- Name: [MAGPUL MS1 LITE SLING COYOTE](#)
- Manufacturer: [MAGPUL](#)
- Product no.: 430104299
- Mfr. No.: MAG1312-COY

MS1 Lite Sling Safety Instruction Guide

Introduction

Thank you for choosing the MS1 Lite Sling by Magpul. This guide provides important safety information and instructions to ensure the safe and effective use of your new sling. Please read this guide carefully before using the product.

General Safety Guidelines

To ensure your safety and the proper functioning of the MS1 Lite Sling, please follow these guidelines:

- Always inspect the sling before use for any signs of wear or damage.
- Ensure that all hardware is securely fastened and functioning correctly.
- Use the sling only for its intended purpose: to carry and support firearms.
- Keep the sling away from children and vulnerable individuals who may not understand its use.
- Do not exceed the manufacturer's load recommendations for the sling.
- Follow all local laws and regulations regarding the use of slings and firearms.

Specific Safety Precautions for Use

When using the MS1 Lite Sling, please observe the following precautions:

- Ensure that the sling is properly adjusted to fit your body and the firearm securely.
- Avoid using the sling in wet or slippery conditions unless necessary; if used in such conditions, ensure it is securely fastened.
- Be cautious of potential snag hazards in your environment, such as branches or equipment, that could catch the sling.
- If using adapters, ensure they are compatible with the MS1 Lite Sling and properly installed.
- Do not attempt to modify or alter the sling or its components in any way.

Instructions for Installation and Usage

Follow these steps for the proper installation and use of the MS1 Lite Sling:

1. Installation:

- Identify the mounting points on your firearm where the sling will attach.
- Attach the sling to the firearm using the appropriate hardware (e.g., QD Sling Swivel, Paraclip™).
- Ensure that all connections are secure and that the sling is free of twists.

2. Adjusting the Sling:

- To adjust the length of the sling, slide the MS1 slider to the desired position.
- Make sure that the sling is snug but allows for comfortable movement.
- Test the adjustment by lifting the firearm to ensure it is secure and stable.

3. Using the Sling:

- When transitioning to a shoulder carry, ensure that the sling is adjusted for easy access and comfort.
- For handsfree carry, ensure the sling is properly adjusted to prevent slipping.
- Use the sling to support your firearm in various shooting positions for stability.

Disposal Instructions

When the MS1 Lite Sling reaches the end of its life or is no longer usable, please dispose of it responsibly:

- Do not dispose of the sling in regular household waste.
- Check local regulations for proper disposal methods for nylon and polymer materials.
- Consider recycling options where available.

Contact Information for Further Support

For any questions or concerns regarding the MS1 Lite Sling, please reach out to the designated contact point provided with your product packaging or visit the manufacturer's official website for more information.

Thank you for your attention to these safety instructions. Enjoy your experience with the MS1 Lite Sling while ensuring safe practices.
