

# BUSHING FULL LENGTH SIZING DIE - 6.5 CREEDMOOR BUSHING FULL LENGTH SIZING DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Bushing Full Length Sizing Die offers advanced precision by allowing you to precisely control the amount of neck sizing tension in your reloaded brass while sizing the body and bumping the shoulder. This die improves accuracy and prolongs case life because the case's shoulder and body is sized down just enough to fit in a minimum-sized SAAMI rifle chamber, and bushing limits working of the neck.

## Attributes

# Bushing Full Length Sizing Die Safety Instruction Guide

## Introduction

Thank you for choosing the Bushing Full Length Sizing Die for your reloading needs. This guide provides essential safety information and instructions to ensure the safe and effective use of this product. Please read all instructions carefully before use.

## General Safety Guidelines

- Ensure that the die is compatible with your reloading equipment and the specific cartridge (6.5 Creedmoor).
- Always wear appropriate personal protective equipment (PPE) such as safety glasses and gloves when handling reloading equipment and materials.
- Keep the workspace clean and organized to prevent accidents.
- Store the die in a safe place where it cannot be accessed by children or unauthorized users.
- Regularly inspect the die for any signs of wear or damage before each use.
- Follow all local laws and regulations regarding the reloading of ammunition.

## Specific Safety Precautions for Use

- Do not exceed the recommended load specifications for the 6.5 Creedmoor cartridge.
- Avoid using the die if it shows any signs of damage, such as cracks or deformities.
- Handle all reloading components, including brass cases and powder, with care to prevent accidents.
- Be aware of the risks associated with reloading, including the potential for injury from improper handling or malfunctioning equipment.
- Ensure proper ventilation in your reloading area to avoid inhalation of dust or fumes.
- Always keep the work area free from distractions while reloading.

## Instructions for Installation and Usage

### 1. Installation:

- Remove the Bushing Full Length Sizing Die from its packaging.
- Ensure that the die is clean and free of debris.
- Install the die into your reloading press according to the manufacturer's instructions.
- Adjust the die to achieve the desired neck sizing tension and body sizing.

### 2. Usage:

- Prepare your brass cases by cleaning and inspecting them.
- Insert the brass case into the die and operate the press according to standard reloading procedures.
- Monitor the sizing process to ensure that the shoulder and body are sized appropriately without excessive working of the neck.
- After sizing, check the dimensions of the brass to ensure they meet the specifications for a minimum sized SAAMI rifle chamber.
- Store the sized brass in a safe location until ready for loading.

## Disposal Instructions

- Dispose of any damaged or worn out dies according to local regulations.
- Do not throw the die in regular household waste; instead, check for specific recycling or disposal guidelines for metal products in your area.
- Ensure that all reloading components, including spent brass, are disposed of safely and responsibly.

## Contact Information for Further Support

For any safety inquiries or concerns regarding the Bushing Full Length Sizing Die, please reach out to your local retailer or the manufacturer directly. Always refer to the product packaging for specific contact details.

## Conclusion

By following these safety instructions and guidelines, you can ensure a safe and effective reloading experience with the Bushing Full Length Sizing Die. Always prioritize safety and be aware of the risks involved in reloading ammunition. Thank you for your attention to these important safety measures.
