

# M-LOK TYPE 2 RAIL COVERS HALF SLOT - MAGPUL RAIL COVERS TYPE 2 HALF SLOT M-LOK POLYMER BLACK 6/BOX

[Rifle Parts](#) > [Forend & Handguard Parts](#) > [Handguard & Rail Accessories](#) > [Rail Covers](#)

M-LOK Type 2 Half Slot Rail Covers are low-profile, two-piece covers that install directly onto most full and half size M-LOK aluminum hand guards (non-polymer). Designed to work in conjunction with full size M-LOK Type 2 Rail Covers, Half Slot Rail Covers can be used to fill extra space left by full size Rail Covers and other accessories—allowing for more customization and coverage of your hand guard. M-LOK Type 2 Half Slot Rail Covers are non-orientation specific, which allows the user to mount them in any direction desired without affecting function. They feature beveled contours to minimize potential snagging, our TSP texture for additional grip, and a low profile that's only slightly more than 1/8" from the mounting surface. The center locking tab is pre-scored to allow the user to snap off sections and mix and match colors for a customized look. Includes four panels, each covering half of an M-LOK slot. Not compatible with MAGPUL MOE M-LOK, MOE SL and SGA fore-ends, and may not be compatible with free-float handguards that have a wider and flatter profile, as they will not seat deep enough to allow the center portion to lock in. Made in the USA. Non-orientation specific, can be mounted in any direction desired. Beveled contours minimize potential snagging. TSP texture creates additional grip. Covers barely protrude more than 1/8" above the rail surface to maintain a low-profile. Can be mixed and matched with various colors for a custom look. Installed or uninstalled in seconds.

## Attributes

- Name: [MAGPUL RAIL COVERS TYPE 2 HALF SLOT M-LOK POLYMER BLACK 6/BOX](#)
- Manufacturer: [MAGPUL](#)
- Product no.: 430106362

# MLOK Type 2 Half Slot Rail Covers Safety Instruction Guide

## Introduction

Thank you for choosing the MLOK Type 2 Half Slot Rail Covers. These covers are designed to enhance the functionality and customization of your MLOK aluminum hand guards. This guide provides essential safety information to ensure the safe use and installation of the product, in compliance with the EU General Product Safety Regulation (GPSR).

## General Safety Guidelines

- Ensure that the product is used only as intended and according to the instructions provided.
- Regularly inspect the rail covers for any signs of wear or damage. Do not use if damaged.
- Keep the product out of reach of children and vulnerable individuals to prevent accidents.
- Report any unsafe conditions or accidents to the relevant authorities.
- Check for recall updates on the EU's Safety Gate platform to stay informed about product safety.

## Specific Safety Precautions for Use

- The MLOK Type 2 Half Slot Rail Covers are designed for use with MLOK aluminum hand guards only. Do not use with incompatible foreends such as MAGPUL MOE MLOK, MOE SL, and SGA.
- Ensure that the rail covers are properly seated and locked into place before use to prevent them from coming loose during operation.
- Avoid mounting the rail covers on freefloat handguards that have a wider and flatter profile, as they may not seat deep enough to lock in securely.
- Be cautious of sharp edges during installation to prevent cuts or injuries.
- The covers are nonorientation specific; however, ensure that they are installed correctly to maintain functionality.

## Instructions for Installation and Usage

### 1. Preparation:

- Gather all necessary tools and ensure that your MLOK hand guard is clean and free from debris.

### 2. Installation:

- Align the MLOK Type 2 Half Slot Rail Cover with the desired slot on the hand guard.
- Press down firmly to engage the locking tab. Ensure that the cover is seated properly.
- If needed, use the prescored center locking tab to snap off sections for a customized fit.
- Repeat the process for additional rail covers as necessary.

### 3. Usage:

- The rail covers can be used to fill gaps between fullsize rail covers and other accessories.
- They are designed to maintain a low profile, protruding only slightly above the rail surface.

### 4. Removal:

- To remove the rail covers, gently pull up on one end to disengage the locking tab.
- Carefully lift the cover off the rail without damaging the hand guard.

## Disposal Instructions

- Dispose of any damaged or unused rail covers in accordance with local waste management regulations.
- Ensure that the product is disposed of in a manner that does not pose a risk to the environment or to public safety.

## Contact Information for Further Support

For any inquiries regarding safety or product information, please refer to the manufacturer's website or customer service for assistance.

Thank you for your attention to these safety guidelines. Enjoy the enhanced functionality and customization that the MLOK Type 2 Half Slot Rail Covers provide.
