

XL FULL LENGTH SIZING DIES - FORSTER 375 ENABELR FULL LENGTH SIZING DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Forster Reloading Dies are of excellent quality and provide the reloader with the ability to produce concentric rounds time and time again. Each die is manufactured from the finest quality steel carefully machined to very tight tolerances. Dies are hand polished both before and after the heat-treating process to guarantee an extra fine finish. All Forster reloading dies feature their Forster Cross Bolt Die Locking Ring that tightens the two ends of the split ring instead of tightening a screw directly into the threads of the die. Forster Full Length Sizing Dies are each equipped with their E-Z Out Expander button which helps keep case necks concentric during the neck expanding operation. It's positioned higher in the neck area than most other dies. This provides support and holds the axis of the neck and case in alignment while the case is withdrawn from the die. XL Full Length Sizing Dies are 1-1/4"

Safety Instruction Guide for XL Full Length Sizing Dies Forster 375 Enabelr

Introduction

Thank you for choosing the XL Full Length Sizing Dies Forster 375 Enabelr. This guide provides essential safety instructions and guidelines to ensure safe and effective use of the product. Please read this document carefully before using the dies to minimize risks and ensure compliance with safety regulations.

General Safety Guidelines

- Always read and understand the product instructions before use.
- Keep the dies out of reach of children and vulnerable individuals.
- Use the dies only for their intended purpose as specified by the manufacturer.
- Regularly inspect the dies for any signs of damage or wear before use.
- Follow all local laws and regulations regarding reloading ammunition.
- Report any unsafe product conditions or accidents to the appropriate authorities.

Specific Safety Precautions for Use

- Ensure that your workspace is clean, welllit, and free from distractions.
- Wear appropriate personal protective equipment (PPE), such as safety glasses and gloves, when handling reloading dies.
- Do not modify or alter the dies in any way, as this may compromise safety and performance.
- Be aware of the potential hazards associated with reloading, including the handling of primers and powders.
- Always doublecheck that the die is securely mounted in your reloading press before use.
- Use the EZ Out Expander button carefully to maintain the concentricity of case necks during the expanding operation.

Instructions for Installation and Usage

1. Installation:

- Ensure that your reloading press is compatible with the XL Full Length Sizing Dies.
- Clean the die and the reloading press area to remove any debris.
- Securely mount the die in the press according to the manufacturer's instructions.
- Adjust the die height as needed to achieve the desired sizing.

2. Usage:

- Prepare your cases by cleaning and inspecting them for damage.
- Insert the case into the die and ensure it is properly aligned.
- Operate the reloading press smoothly to size the case, ensuring that the die remains stable.
- After sizing, carefully remove the case from the die and check for proper sizing.

Disposal Instructions

- Dispose of any damaged or worn dies in accordance with local regulations.
- Do not discard dies in regular household waste.
- If applicable, contact your local waste management authority for proper disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the XL Full Length Sizing Dies Forster 375 Enabelr, please refer to the manufacturer's website or contact their customer service for assistance.

By following these safety instructions, you can ensure a safe and effective reloading experience. Thank you for your attention to safety.
