

XL FULL LENGTH SIZING DIES - FORSTER 375 CHEYTAC FULL LENGTH SIZING DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Forster Reloading Dies are of excellent quality and provide the reloader with the ability to produce concentric rounds time and time again. Each die is manufactured from the finest quality steel carefully machined to very tight tolerances. Dies are hand polished both before and after the heat-treating process to guarantee an extra fine finish. All Forster reloading dies feature their Forster Cross Bolt Die Locking Ring that tightens the two ends of the split ring instead of tightening a screw directly into the threads of the die. Forster Full Length Sizing Dies are each equipped with their E-Z Out Expander button which helps keep case necks concentric during the neck expanding operation. It's positioned higher in the neck area than most other dies. This provides support and holds the axis of the neck and case in alignment while the case is withdrawn from the die. XL Full Length Sizing Dies are 1-1/4"

XL Full Length Sizing Dies Safety Instruction Guide

Introduction

Thank you for choosing the Forster XL Full Length Sizing Dies for your reloading needs. This guide provides essential safety instructions and guidelines to ensure safe and effective use of your reloading dies. Please read this document carefully before use.

General Safety Guidelines

To ensure safe use of the Forster XL Full Length Sizing Dies, please follow these general safety guidelines:

- Always handle reloading equipment with care and respect.
- Ensure that your workspace is clean, welllit, and free from distractions.
- Keep reloading components and tools out of reach of children and pets.
- Use personal protective equipment (PPE), such as safety glasses and gloves, to protect yourself during reloading operations.
- Familiarize yourself with the specific characteristics of the cartridge you are reloading.
- Always follow the manufacturer's instructions and recommendations for reloading.

Specific Safety Precautions for Use

When using the Forster XL Full Length Sizing Dies, please adhere to the following safety precautions:

- Inspect the dies before each use for any signs of damage or wear.
- Ensure the die is securely mounted in the reloading press before operation.
- Keep hands and other body parts clear of the die and press during operation.
- Avoid wearing loose clothing or jewelry that could become caught in the machinery.
- Do not exceed recommended load limits as specified in reloading manuals.
- Store all reloading components and tools in a safe and organized manner.

Instructions for Installation and Usage

Follow these steps for the proper installation and usage of the Forster XL Full Length Sizing Dies:

1. Installation:

- Remove the die from its packaging and inspect it for any damage.
- Securely mount the die in your reloading press by tightening the Forster Cross Bolt Die Locking Ring.
- Ensure that the die is aligned properly with the press.

2. Usage:

- Prepare your cases by cleaning and inspecting them for defects.
- Adjust the die to the correct depth for your specific cartridge (375 Cheytac).
- Insert the case into the die and operate the press to resize the case.
- After resizing, remove the case and inspect it for proper sizing.
- Repeat the process for all cases you intend to reload.

Disposal Instructions

When disposing of any reloading components or dies, please follow these guidelines:

- Dispose of spent primers and any other hazardous materials in accordance with local regulations.
- Do not throw away reloading dies in regular trash. Check with local recycling centers for proper disposal methods.
- Ensure that all materials are disposed of in a safe manner to prevent harm to the environment.

Contact Information for Further Support

For any questions or concerns regarding the Forster XL Full Length Sizing Dies, please refer to the manufacturer's contact information provided on the packaging or product documentation.

Thank you for prioritizing safety while using the Forster XL Full Length Sizing Dies. Your attention to these guidelines will help ensure a safe and successful reloading experience.
