

BUSHING FULL LENGTH SIZING DIE - FORSTER PRODUCTS, INC. 338 LAPUA BUSHING FULL LENGTH DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Bushing Full Length Sizing Die offers advanced precision by allowing you to precisely control the amount of neck sizing tension in your reloaded brass while sizing the body and bumping the shoulder. This die improves accuracy and prolongs case life because the case's shoulder and body is sized down just enough to fit in a minimum-sized SAAMI rifle chamber, and bushing limits working of the neck.

Attributes

- Name: [FORSTER PRODUCTS, INC. 338 LAPUA BUSHING FULL LENGTH DIE](#)

Bushing Full Length Sizing Die Safety Instructions

Introduction

Thank you for choosing the Bushing Full Length Sizing Die from Forster Products, Inc. This product is designed to provide advanced precision in reloading brass cartridges, specifically for the 338 Lapua. To ensure safe and effective use of this product, please read and follow these safety instructions carefully.

General Safety Guidelines

- Always use the Bushing Full Length Sizing Die in accordance with the manufacturer's instructions.
- Ensure that your workspace is clean and free from distractions while reloading.
- Store the die in a safe place, away from children and pets.
- Use personal protective equipment (PPE) such as safety glasses and gloves when handling reloading materials.
- Regularly inspect the die for any signs of damage or wear before each use.
- Report any unsafe products or accidents to the appropriate authorities.

Specific Safety Precautions for Use

- Ensure that the die is compatible with your reloading press before use.
- Do not exceed the recommended load specifications when reloading.
- Avoid using the die for any purpose other than its intended use.
- Keep fingers and other body parts clear of moving parts during operation.
- Do not attempt to modify or alter the die in any way.
- Always follow proper reloading practices to minimize the risk of accidents.

Instructions for Installation and Usage

1. Installation

- Ensure that your reloading press is securely mounted and stable.
- Remove any previous dies from the press.
- Insert the Bushing Full Length Sizing Die into the press and tighten it securely.
- Adjust the die to the desired position according to your specific reloading requirements.

2. Usage

- Begin by preparing your brass cases for resizing.
- Lubricate the cases as recommended to avoid sticking in the die.
- Place the brass case into the shell holder of the press.
- Slowly raise the ram to bring the case into contact with the die.
- Apply consistent pressure until the resizing process is complete.
- Lower the ram and remove the resized case from the shell holder.
- Inspect the resized case for any defects before proceeding to the next step in your reloading process.

Disposal Instructions

- Dispose of any used brass cases and materials in accordance with local regulations.
- Do not dispose of the die in regular household waste.
- Contact local recycling centers or hazardous waste facilities for proper disposal methods.

Contact Information for Further Support

For any inquiries or further assistance regarding the Bushing Full Length Sizing Die, please consult the manufacturer or authorized retailers. It is important to have access to support for any safetyrelated questions or concerns.

By following these safety instructions, you can ensure safe and effective use of the Bushing Full Length Sizing Die while complying with the EU General Product Safety Regulation. Thank you for prioritizing safety in your reloading practices.
