

MBA-5 BUTTSTOCK ASSEMBLY - LUTH-AR MBA-5 BUTSTOCK ASSEMBLY FDE

[Rifle Parts](#) > [Stock Parts](#) > [Buttstocks](#)

MBA-5 Buttstock The Luth-AR MBA-5 Buttstock is the latest in the MBA Series. Designed as an affordable, lightweight, adjustable carbine buttstock with a paddle-style adjustment lever allowing rapid positioning. The wide flared cheek rest provides a comfortable cheek weld and the integrated Picatinny rail allows for attaching a mono-pod or other accessories and the Anti-rattle set screw allows for adjustment when used with a Mil-spec buffer tube. The MBA-5 requires a Carbine buffer tube, either Mil-Spec or Commercial. Please review the information provided in the Requirements tab below. The MBA-5 is Grovtec™ Quick Detach sling cup ready*. Note: The MBA-5 is designed with a non-adjustable, flared cheek rest and is not intended to provide vertical adjustment. Order an MBA-3 or add a Cheek Rest Assembly to your MBA-4 for full cheek rest adjust ability on a Carbine butt stock.

Safety Instruction Guide for MBA5 Buttstock Assembly

Introduction

Thank you for choosing the LuthAR MBA5 Buttstock Assembly. This guide provides important safety information, installation instructions, and usage guidelines to ensure safe operation and compliance with the EU General Product Safety Regulation (GPSR). Please read this guide carefully before using the product.

General Safety Guidelines

- Ensure the product is used only for its intended purpose as a buttstock assembly for AR15 rifles.
- Regularly inspect the buttstock for any signs of wear or damage before each use.
- Keep the product out of reach of children and unauthorized users.
- Always adhere to local laws and regulations regarding firearm accessories.
- Report any unsafe products or incidents to the appropriate authorities.
- Check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- **Potential Hazards:**

- Improper installation may lead to malfunction or injury.
- Using the buttstock with an incompatible buffer tube may cause instability.
- Failure to secure the buttstock properly can result in detachment during use.

- **Instructions for Avoiding Hazards:**

- Ensure compatibility with a Carbine buffer tube, either MilSpec or Commercial.
- Always use the Antirattle set screw to secure the buttstock.
- Do not attempt to adjust the cheek rest as it is nonadjustable.
- Avoid using the buttstock with excessive force during adjustments.

- **AgeSpecific Warnings:**

- This product is intended for adult use only. Keep it away from minors.

Instructions for Installation and Usage

1. Installation:

- Ensure you have the correct tools ready for installation.
- Check that you have a compatible Carbine buffer tube (MilSpec or Commercial).
- Slide the MBA5 Buttstock onto the buffer tube until it is fully seated.
- Use the Antirattle set screw to tighten the buttstock securely against the buffer tube.
- Ensure that the paddlestyle adjustment lever is functioning properly before use.

2. Usage:

- Adjust the buttstock to your preferred length using the paddlestyle adjustment lever.
- Ensure the cheek rest is properly aligned to provide a comfortable cheek weld.
- Attach any desired accessories using the integrated Picatinny rail.
- Regularly check the tightness of the Antirattle set screw during use.

Disposal Instructions

- Dispose of the MBA5 Buttstock Assembly in accordance with local regulations.
- Do not dispose of the product in regular household waste.
- Consider recycling options for plastic materials where available.

Contact Information for Further Support

For any questions or concerns regarding the MBA5 Buttstock Assembly, please refer to the manufacturer's website or contact their customer support for assistance. Always ensure you have the latest information and updates regarding your product.

By following these guidelines, you can ensure the safe and effective use of your LuthAR MBA5 Buttstock Assembly. Thank you for your attention to safety.
