

DUSK 19 9MM LUGER THREADED BARREL SEMI-AUTO HANDGUN - DUSK 19 9MM LUGER 3.9" THREADED BBL (1)15RD MAG BRONZE/BROWN

Lone Wolf Arms, a company known as a leader of innovation in the Glock aftermarket, is proud to announce the DUSK19 pistol line. With more than two decades of experience providing aftermarket solutions to enhance both the performance and aesthetics of the Glock-pattern pistol, Lone Wolf Arms has implemented these years of development into the DUSK19. The upper includes a new DUSK19 profile slide made of 17-4SS and finished in either an attractive black nitride or a selection of great PVD options such as flat dark earth, oil rubbed bronze, or graphite gray. Front and rear serrations on the slide provide ease of chambering and press-check. The slide is reflex sight-ready with the DUSK19 optic cover plate included, which is compatible with both Trijicon RMR/SRO and Holosun 407/507/508 (Non-K Models) footprints. Additionally, this slide includes a suppressor height Night Fision Stealth Series sight with a Tritium insert for clear sight vision from DUSK to dawn. The upper also includes a 416 stainless-steel PVD coated barrel with the new DUSK 19 profile and is available in either threaded or non-threaded. The hood pocket and lateral ribs reduce bearing surface for faster cycling and coating wear resistance. The CCS frame features a 19° grip angle for improved point ability and interchangeable flat & rounded backstraps to allow the shooter the most comfortable choice of grip. The integrated take-down frame scallops for ease of function as well as integrated grip panels with a textured grip for an ergonomic, stable grip. The grip includes an integrated, flared magwell with a grip textured toe kick and an enlarged trigger guard to prevent "Glock knuckle". The trigger is a new flat enhanced system with improved geometry for trigger take-up and decreased energy to actuate. The trigger also offers a 30% reduction in Peak Force from the OEM trigger for smooth and efficient shooting. Additionally, the DUSK19 with a threaded barrel is light, weighing in at 20.0 oz without a magazine, and is the perfect EDC size at an overall length of 7.655". The DUSK19 Handgun combines the shootability and convenience you look for in a Glock-pattern pistol with the premium, trusted Lone Wolf Arms parts you know and love, engineering a truly unique handgun that is comfortable to shoot and built to last. Key Features: Reflex Sight Ready with DUSK optic cover plate included Interchangeable flat & rounded backstraps for comfortable, customized grip and integrated grip panels with form-fitting texture Stainless steel PVD coated barrel with DUSK profile New enhanced flat trigger system and ergonomic guard profile to reduce "Glock knuckle" Front & rear serrations for ease of chambering and press check Specs: OAL (w/ threaded barrel): 7.655" Threaded Barrel Length (breach – muzzle): 4.60" Height (without sights): 4.61" Threaded Barrel Height (with sights): 5.08" Upper Width: 1.00" Lower Width: 1.14" Magwell Width: 1.23" Weight (without magazine): 19.8/oz.
