

BRN-4 STRIPPED BARRELS CHROME LINED - BROWNELLS BRN-4 5.56X45 NATO 10.4" HEAVY CHROME LINED BARREL PHOSPHATE

[Rifle Parts](#) > [Barrel Parts](#) > [Rifle Barrels](#)

Brownells BRN-4 HK® 416 compatible barrels, available in a variety of lengths and two contours. Historically extremely hard to procure, HK® 416 compatible barrels are now available as part of the BRN-4 lineup. These barrels machined by Faxon, fit early generations of HK® 416 upper receivers and components. They are the perfect fit with the BRN-4 bolt carrier group and gas block (search "BRN-4" for all parts). Available in common barrel lengths of 10.4, 14.5 and 16 inch, these barrels are suitable for any need. You can select the classic "heavy" profile, which is similar to the profile found on earlier HK® 416 models, ensuring barrel rigidity with minimal flex, or you can pick the new "medium" profile, which saves weight and makes the rifle quite handy. Barrels are button rifled with a 1-7 twist and have commonly used 1/2-28 muzzle threads for the attachment of the muzzle device of your choice. A deep black nitride finish provides an extremely hard exterior and interior, that is easy to clean. The longer barrel extension of the BRN-4 allows for a robust matchup to the upper receiver, and a simple install with the BRN-4 barrel nut (430-100-141). 5.56x45mm NATO chamberings allow for a wide variety of commercially found ammunition to function, as well as 223 Remington cartridges. No need to worry about picking the right gas system length, as all of these barrels have the same piston rod assembly (078-000-644), just be sure to pick the correct BRN-4 gas block to match your overall barrel length, (078-000-708 & 078-000-709). Be sure to pick up the gas block coil pins for final assembly as well (430-103-127). Recommended Barrel Nut Torque: 50-80 ft/lbs

Attributes

BRN4 Stripped Barrels Safety Instruction Guide

Introduction

Thank you for choosing the BRN4 Stripped Barrels. This guide provides essential safety instructions and guidelines to ensure the safe use, installation, and maintenance of your product. Please read this document carefully before using the barrel to ensure a safe and enjoyable experience.

General Safety Guidelines

To ensure your safety and the safety of others, please follow these general safety guidelines:

- Always treat firearms and firearm components as if they are loaded.
- Ensure you are in a safe environment when handling or installing the barrel.
- Always wear appropriate personal protective equipment (PPE) such as safety glasses and gloves when handling the barrel.
- Keep the barrel and all firearm components out of reach of children and unauthorized individuals.
- Regularly inspect the barrel for any signs of damage or wear before use.
- Follow all local laws and regulations regarding firearm ownership and use.

Specific Safety Precautions for Use

When using the BRN4 Stripped Barrels, please observe the following precautions:

- Ensure that the barrel is compatible with your firearm before installation.
- Use only ammunition that is specified for the barrel, such as 5.56x45mm NATO or .223 Remington.
- Be aware of the barrel's twist rate (17) and muzzle thread specifications (1/228) to ensure compatibility with your firearm components.
- Avoid using excessive force during installation to prevent damage to the barrel or firearm.
- Make sure the gas system length is appropriate for your setup to prevent malfunctions.
- Always verify that the gas block is properly installed and secured before use.

Instructions for Installation and Usage

Follow these steps to safely install and use your BRN4 Stripped Barrel:

1. Preparation:

- Ensure your workspace is clean and free of obstructions.
- Gather all necessary tools, including a torque wrench for the barrel nut.

2. Installation:

- Remove the existing barrel from your firearm according to the manufacturer's instructions.
- Align the BRN4 barrel with the upper receiver, ensuring a proper fit.
- Install the barrel nut using the recommended torque of 5080 ft/lbs.
- Attach the gas block, ensuring it matches the appropriate gas system length for your barrel.
- Install the gas block coil pins for final assembly.

3. Verification:

- Inspect the installation to ensure all components are secure and properly aligned.
- Check that the muzzle device is attached correctly and securely.

4. Usage:

- Load your firearm according to the manufacturer's instructions.
- Always follow safe shooting practices and be aware of your surroundings.
- After use, clean the barrel and inspect it for any signs of wear or damage.

Disposal Instructions

When disposing of the BRN4 Stripped Barrel, please follow these guidelines:

- Do not dispose of the barrel in regular household waste.
- Check local regulations for proper disposal methods of firearm components.
- If the barrel is damaged or no longer usable, contact a local firearms dealer for guidance on proper disposal.

Contact Information for Further Support

For any questions or concerns regarding the BRN4 Stripped Barrels, please refer to the manufacturer's website or customer service for assistance. Ensure you have your product information ready for any inquiries.

Conclusion

By following these safety instructions and guidelines, you can ensure the safe and effective use of your BRN4 Stripped Barrels. Always prioritize safety and compliance with local laws when handling firearms and their components. Thank you for your attention to these important safety measures.
