[Handgun Parts](#) > [Frame Parts](#) > [Frames](#)

The SCT Manufacturing Glock® Compatible Sub Compact complete assembled frame is going to change the way you build pistols. It is the only frame at this price point packed with this level of features. This is a serialized frame with shooter-oriented ergonomics. Polished stainless steel over molded rails provide the optimal platform that is ready to build. They are made with an industry leading proprietary polymer blend and compatible with Glock® 43X and 48 components. Each frame is assembled using a combination of Glock® OEM and SCT manufactured parts by a certified armorer. The last step of each frame assembly is function testing utilizing a Glock® factory slide checking for safe operation, striker engagement, trigger pull, trigger reset, & magazine function ensuring the end user is left with a frame that needs nothing but a slide assembly right out of the box! **FEATURES** Fully assembled with SCT SC frame with Glock® OEM and SCT internals. Serrations and index point on trigger guard to help control recoil Serrations on top of beaver tail reduce glare Flared mag well Ambidextrous mag release Thumb Accelerator pad Advanced contour grip with aggressive texturing Modified Factory Picatinny with additional mounting slot. Extended beaver tail with low profile bore axis Grip angle is the same as Glock® Slide stop guard Larger trigger guard for better access with gloves Recessed contoured mag release area for faster mag changes Multi caliber- Compatible with compact 9mm & .380 Frame assembly includes: SCT SC polymer frame, electroless nickel locking block, OEM trigger assembly, standard polymer magazine catch, magazine catch spring, steel trigger pin, steel locking block pin, standard OEM slide lock, slide lock coil spring, polymer trigger housing pin, OEM trigger housing with ejector, standard slide stop assembly & polished 4.5 lb. electroless nickel trigger connector. Disclaimer: SCT Manufacturing recommends the installation of mating components be performed by a certified gunsmith to ensure proper function and safety. Due to variations in third party parts and accessories, SCT Manufacturing will not be held liable for any damage caused to you and/or your firearm as a result of aftermarket accessory use.

SCT 43X Sub Compact Assembled Polymer Frame

Safety Instructions

Introduction

Thank you for choosing the SCT 43X Sub Compact Assembled Polymer Frame. This product is designed to enhance your pistolbuilding experience while ensuring safety and compliance with European Union regulations. This guide provides essential safety instructions and guidelines to ensure the safe use of this product.

General Safety Guidelines

- Ensure that all components are compatible and properly installed.
- Always handle firearms with care and treat every firearm as if it is loaded.
- Store the frame and any related components in a secure location, away from children and unauthorized users.
- Regularly inspect your frame for any signs of wear or damage.
- Do not modify the frame or use aftermarket parts that are not recommended by SCT Manufacturing.
- Be aware of your surroundings and ensure a safe environment when using the firearm.

Specific Safety Precautions for Use

- Always wear appropriate eye and ear protection when using the firearm.
- Ensure that the frame is properly assembled before use. Verify that all components are securely in place.
- Do not exceed the recommended specifications for ammunition types and capacities.
- Be mindful of the recoil and control the firearm properly to prevent accidents.
- If you are inexperienced, seek guidance from a qualified instructor before using the firearm.
- Do not point the firearm at anything you do not intend to shoot.

Instructions for Installation and Usage

1. Installation of Components

- Ensure you have all necessary components: SCT SC polymer frame, electroless nickel locking block, OEM trigger assembly, and other listed parts.
- Follow the assembly instructions provided by SCT Manufacturing carefully.
- Use tools as specified in the assembly instructions to avoid damaging components.

2. Function Testing

- After assembly, conduct a function test using a Glock factory slide to check for safe operation.
- Verify the striker engagement, trigger pull, trigger reset, and magazine function.
- Ensure that the frame operates smoothly without any obstructions.

3. Using the Frame

- Load the firearm only when you are ready to shoot.
- Always keep your finger off the trigger until you are ready to fire.
- Follow all local laws and regulations regarding firearm usage.

4. Maintenance

- Clean the frame regularly to ensure optimal performance.
- Inspect all components for wear or damage before each use.

- Replace any damaged parts immediately.

Disposal Instructions

- Dispose of any unused or damaged components in accordance with local regulations.
- Do not dispose of firearms or firearm components in regular household waste.
- Contact local authorities or waste management services for proper disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the SCT 43X Sub Compact Assembled Polymer Frame, please refer to the SCT Manufacturing website or contact your local distributor.

Please remember that safety is paramount when handling firearms. Always prioritize safe practices to ensure a positive experience with your SCT 43X frame.
