

TSS TURKEY FOR SHORT BROWNING INVECTOR CHOKE TUBES - CARLSONS TSS TURKEY .410 INVECTOR SHORT (1.5" FLUSH TUBE) BLACK

[Shotgun Parts](#) > [Choke Tubes & Accessories](#) > [Choke Tubes](#)

Carlson's TSS Turkey Choke Tubes are optimized for Federal Premium® Heavyweight® TSS Turkey Loads but also work exceptionally well with other manufacturer's turkey ammunition (Smaller shot size 7-9). The Federal Premium's Heavyweight TSS Turkey Load has an incredibly high pellet count in both 7 and 9 shot, along with the ability to carry energy further, makes them ideal for .410, 20ga, and 12ga. Tungsten Super Shot (TSS) has a 22% heavier density than heavyweight shot and a 56% heavier density than traditional lead shot. It puts the maximum amount of pellets possible in a 10" circle at 40 yds. The Heavyweight TSS shells will include the Flite Control Flex™ wad that gives hunters the ability to shoot any choke tube they prefer. Long-range turkeys don't stand a chance.

Safety Instruction Guide for TSS Turkey Choke Tubes

Introduction

Thank you for choosing Carlson's TSS Turkey Choke Tubes. These products are designed to enhance your shooting experience while ensuring safety during use. Please read this safety instruction guide carefully to understand how to use the choke tubes safely and effectively.

General Safety Guidelines

- Always treat every firearm as if it is loaded.
- Ensure that you are familiar with the operation of your firearm before using the choke tubes.
- Use only recommended ammunition with the choke tubes to avoid potential hazards.
- Inspect the choke tubes for any signs of damage before each use.
- Store choke tubes and ammunition in a secure location, out of reach of children and unauthorized users.
- Be aware of your surroundings and ensure that the area is safe before firing.
- Follow all local laws and regulations regarding firearm use and hunting.

Specific Safety Precautions for Use

- Ensure that the choke tube is securely installed in the shotgun before use.
- Do not attempt to modify the choke tube in any way.
- Avoid using steel shot or any other noncompatible ammunition with these choke tubes.
- Always wear appropriate eye and ear protection when shooting.
- Be cautious of the target and what lies beyond it.
- If you experience any malfunctions or irregularities while shooting, stop using the choke tube immediately and consult a qualified gunsmith.

Instructions for Installation and Usage

1. Installation:

- Ensure the shotgun is unloaded and the action is open.
- Select the appropriate choke tube for your shotgun gauge.
- Screw the choke tube into the muzzle of the shotgun until it is snug. Do not overtighten.
- Check that the choke tube is properly seated and secure.

2. Usage:

- Load your shotgun with compatible ammunition (Federal Premium® Heavyweight® TSS Turkey Loads recommended).
- Aim at the target and ensure that your shooting area is clear.
- Fire the shotgun while maintaining control and awareness of your surroundings.
- After use, unload the shotgun and remove the choke tube for cleaning.

Disposal Instructions

- Dispose of any damaged or worn choke tubes in accordance with local regulations.
- Do not throw away choke tubes in regular household waste. Check with your local waste management facility for proper disposal methods.

Contact Information for Further Support

For safety inquiries or additional support, please refer to the manufacturer's contact information provided with the product packaging or visit the manufacturer's website.

Conclusion

By following these safety guidelines and instructions, you can enjoy the benefits of Carlson's TSS Turkey Choke Tubes while ensuring a safe shooting experience. Always prioritize safety and responsible firearm handling. Thank you for your attention to these important safety measures.
