

SIX PACK PRO PRESS KIT - LEE PRECISION SIX PACK PRO PRESS KIT 9MM LUGER

[Reloading](#) > [Reloading Presses](#) > [Progressive Presses](#)

The culmination of nearly 40 years of progressive press design and production. Years of comments and suggestions have been incorporated into this new press. Pistol Six Pack Pro Kit includes: Six pack progressive press, Auto drum powder measure, shell plate, Universal case feed magazine, and Lee breech lock dies (carbide full length sizing die, powder through expanding die, bullet seating die, and instructions with load data). Carbide factory crimp die is sold separately, available as an accessory. Rifle Six Pack Pro Kit includes Six pack progressive press, Auto drum powder measure, shell plate, Universal case feed magazine, and Lee breech lock dies (full length sizing die, short charging die, easy adjust dead length bullet seating die, factory crimp die and instructions with load data). Features: Six stations allow any brand of die be used -- in line bullet feed dies, powder check dies and such. Simple and reliable automatic indexing -- just one moving part, replaceable in seconds, no tools required and never requires adjustment. Stroke and clearance sufficient for largest magnum rifle cases. Uses the same all steel linkage found on our Classic Cast 50 BMG press. Massive 28.4mm ram glides through 82 mm of solid steel giving the ram over 7300 mm² of solid support. Spent primer tube collects dirty, gritty spent primers. All dies securely fastened in the upper die carrier with Lee Smart Lock bushings. No more turret or tool head to replace or move during use. Automatic priming system - simple, reliable and safe with any brand or size of primer. Primes at the bottom of stroke so all six stations are available for operations. Automatic case inserter works with any case. Cases can be manually fed through the convenient loading port. Includes the Lee case feed magazine, works with most hand gun cases and all AR rifle cases. Easy to set case retainers on every station. No springs, plugs or buttons to loose or tinker with. Cartridge changeover in seconds, including primer size with no adjustments. Automatic case ejector reliably whisks away your completed round to the ammo bin. Press includes combination tool rack, bin bracket, along with free ammo bin.

Attributes

- Name: [LEE PRECISION SIX PACK PRO PRESS KIT 9MM LUGER](#)

Safety Instruction Guide for the SIX PACK PRO PRESS KIT

Introduction

Thank you for choosing the SIX PACK PRO PRESS KIT by Lee Precision. This guide provides essential safety instructions and general guidelines to ensure the safe use of the product. Please read this manual carefully before using the press kit to avoid accidents and ensure a safe reloading experience.

General Safety Guidelines

- Ensure that the press kit is used in a wellventilated area to avoid inhalation of dust or fumes.
- Always wear appropriate personal protective equipment (PPE), such as safety glasses and gloves, when operating the press.
- Keep the work area clean and free of clutter to prevent accidents.
- Store the press kit and all components in a secure location, out of reach of children and pets.
- Regularly inspect the press for any signs of wear or damage. Do not use damaged components.
- Follow all local laws and regulations regarding ammunition reloading.

Specific Safety Precautions for Use

- **Hazard Identification:** Be aware of potential hazards such as sharp edges, heavy components, and moving parts.
- **Avoiding Hazards:**
 - Always keep hands and body parts clear of moving parts during operation.
 - Do not attempt to operate the press with wet hands or while under the influence of drugs or alcohol.
 - Use only the recommended components and dies for the press to avoid malfunction.
- **Age Restrictions:** This product is intended for use by individuals aged 18 years and older. Ensure that minors are supervised when in the vicinity of the press.

Instructions for Installation and Usage

1. Installation:

- Place the press on a stable, flat surface to ensure stability during operation.
- Secure the press to the workbench using bolts or clamps, if necessary, to prevent movement.
- Assemble the components according to the included instructions, ensuring all parts are tightly secured.

2. Usage:

- Before starting, ensure that the press is free from obstructions and all tools are removed from the work area.
- Load the die and set the desired adjustments according to the instructions provided with the press.
- Use the automatic indexing feature carefully, ensuring that all components are functioning correctly before operation.
- Monitor the operation closely and cease use immediately if any unusual sounds or movements occur.

3. General Operation:

- Always prime cases at the bottom of the stroke to maximize safety and efficiency.

- Never leave the press unattended while in operation.
- After completing your session, clean the press to remove any debris or powder residue.

Disposal Instructions

- Dispose of any spent primers and other waste materials in accordance with local regulations.
- Recycle packaging materials where possible to minimize environmental impact.
- If the press kit is no longer usable, follow local guidelines for the disposal of metal and plastic components.

Contact Information for Further Support

For any inquiries or concerns regarding the SIX PACK PRO PRESS KIT, please refer to the product documentation or contact the manufacturer directly. Ensure you keep this manual for future reference.

Thank you for prioritizing safety while using the SIX PACK PRO PRESS KIT. Enjoy your reloading experience responsibly!
