

SIX PACK PRO PRESS KIT - LEE PRECISION SIX PACK PRO PRESS KIT 223 REMINGTON

[Reloading](#) > [Reloading Presses](#) > [Progressive Presses](#)

The culmination of nearly 40 years of progressive press design and production. Years of comments and suggestions have been incorporated into this new press. Pistol Six Pack Pro Kit includes: Six pack progressive press, Auto drum powder measure, shell plate, Universal case feed magazine, and Lee breech lock dies (carbide full length sizing die, powder through expanding die, bullet seating die, and instructions with load data). Carbide factory crimp die is sold separately, available as an accessory. Rifle Six Pack Pro Kit includes Six pack progressive press, Auto drum powder measure, shell plate, Universal case feed magazine, and Lee breech lock dies (full length sizing die, short charging die, easy adjust dead length bullet seating die, factory crimp die and instructions with load data). Features: Six stations allow any brand of die be used -- in line bullet feed dies, powder check dies and such. Simple and reliable automatic indexing -- just one moving part, replaceable in seconds, no tools required and never requires adjustment. Stroke and clearance sufficient for largest magnum rifle cases. Uses the same all steel linkage found on our Classic Cast 50 BMG press. Massive 28.4mm ram glides through 82 mm of solid steel giving the ram over 7300 mm² of solid support. Spent primer tube collects dirty, gritty spent primers. All dies securely fastened in the upper die carrier with Lee Smart Lock bushings. No more turret or tool head to replace or move during use. Automatic priming system - simple, reliable and safe with any brand or size of primer. Primes at the bottom of stroke so all six stations are available for operations. Automatic case inserter works with any case. Cases can be manually fed through the convenient loading port. Includes the Lee case feed magazine, works with most hand gun cases and all AR rifle cases. Easy to set case retainers on every station. No springs, plugs or buttons to loose or tinker with. Cartridge changeover in seconds, including primer size with no adjustments. Automatic case ejector reliably whisks away your completed round to the ammo bin. Press includes combination tool rack, bin bracket, along with free ammo bin.

Safety Instruction Guide for the SIX PACK PRO PRESS KIT

Introduction

Thank you for choosing the SIX PACK PRO PRESS KIT by Lee Precision. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of this product. Please read this document carefully before using the press kit.

General Safety Guidelines

- **Product Safety:** Always ensure that the press kit is used in accordance with the manufacturer's instructions to minimize risks.
- **Enhanced Recalls:** Stay informed about any recalls related to this product. Check regularly for updates.
- **Online Shopping:** If purchased online, ensure the seller complies with safety standards.
- **Special Consumer Focus:** Keep this product out of reach of children and ensure that only adults use it.
- **EU Contact Point:** For safety inquiries, please refer to the manufacturer's contact information.
- **Rapid Alerts:** Be aware of updates regarding unsafe products through the EU Safety Gate system.

Specific Safety Precautions for Use

- **Personal Safety:**
 - Always wear safety glasses when operating the press to protect your eyes from debris.
 - Use gloves to protect your hands from sharp edges and hot surfaces.
- **Work Environment:**
 - Ensure your work area is welllit and organized to prevent accidents.
 - Keep the area free from clutter and distractions.
- **Handling Materials:**
 - Use only the recommended materials for reloading to avoid malfunctions or accidents.
 - Store all components, including powders and primers, in a safe and secure location.
- **Operational Safety:**
 - Do not exceed the maximum load specifications outlined in the instructions.
 - Never leave the press unattended while in use.
 - Ensure that all safety features are functional before operating the press.

Instructions for Installation and Usage

1. Installation:

- Choose a stable and level surface for mounting the press.
- Secure the press using the provided mounting hardware to prevent movement during use.
- Refer to the installation manual for detailed steps.

2. Usage:

- Familiarize yourself with all parts of the press before starting.
- Load the shell plate and ensure it is properly seated.
- Set up the Auto drum powder measure according to the instructions.
- Insert the Lee breech lock dies securely into the upper die carrier.
- Follow the instructions for the automatic priming system to ensure safe operation.
- Always check the press for any obstructions before starting the reloading process.

3. Safety Checks:

- Before each use, inspect the press for any signs of wear or damage.
- Ensure that all components are securely fastened and functioning correctly.
- Test the automatic case inserter to confirm it operates smoothly.

Disposal Instructions

- Dispose of any unused or expired reloading materials in accordance with local regulations.
- Recycle packaging materials where possible.
- Do not dispose of hazardous materials in regular waste.

Contact Information for Further Support

For any questions or concerns regarding the SIX PACK PRO PRESS KIT, please refer to the manufacturer's customer support resources.

Thank you for prioritizing safety while using your Lee Precision product. Happy reloading!
