

SIX PACK PRO PRESS KIT - LEE PRECISION SIX PACK PRO PRESS KIT 40 S&W

[Reloading](#) > [Reloading Presses](#) > [Progressive Presses](#)

The culmination of nearly 40 years of progressive press design and production. Years of comments and suggestions have been incorporated into this new press. Pistol Six Pack Pro Kit includes: Six pack progressive press, Auto drum powder measure, shell plate, Universal case feed magazine, and Lee breech lock dies (carbide full length sizing die, powder through expanding die, bullet seating die, and instructions with load data). Carbide factory crimp die is sold separately, available as an accessory. Rifle Six Pack Pro Kit includes Six pack progressive press, Auto drum powder measure, shell plate, Universal case feed magazine, and Lee breech lock dies (full length sizing die, short charging die, easy adjust dead length bullet seating die, factory crimp die and instructions with load data). Features: Six stations allow any brand of die be used -- in line bullet feed dies, powder check dies and such. Simple and reliable automatic indexing -- just one moving part, replaceable in seconds, no tools required and never requires adjustment. Stroke and clearance sufficient for largest magnum rifle cases. Uses the same all steel linkage found on our Classic Cast 50 BMG press. Massive 28.4mm ram glides through 82 mm of solid steel giving the ram over 7300 mm² of solid support. Spent primer tube collects dirty, gritty spent primers. All dies securely fastened in the upper die carrier with Lee Smart Lock bushings. No more turret or tool head to replace or move during use. Automatic priming system - simple, reliable and safe with any brand or size of primer. Primes at the bottom of stroke so all six stations are available for operations. Automatic case inserter works with any case. Cases can be manually fed through the convenient loading port. Includes the Lee case feed magazine, works with most hand gun cases and all AR rifle cases. Easy to set case retainers on every station. No springs, plugs or buttons to loose or tinker with. Cartridge changeover in seconds, including primer size with no adjustments. Automatic case ejector reliably whisks away your completed round to the ammo bin. Press includes combination tool rack, bin bracket, along with free ammo bin.

Safety Instruction Guide for the SIX PACK PRO PRESS KIT

Introduction

Thank you for choosing the SIX PACK PRO PRESS KIT by Lee Precision. This guide provides essential safety information and instructions to ensure the safe and effective use of your progressive press. Please read this guide thoroughly before using the product.

General Safety Guidelines

- Always use the press in accordance with the manufacturer's instructions.
- Ensure that the workspace is clean, dry, and welllit.
- Keep the press out of reach of children and vulnerable individuals.
- Regularly inspect the press for any signs of wear or damage before use.
- Store the press in a safe location when not in use.
- Report any unsafe conditions or accidents to the relevant authorities.
- Check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- **Hazard Identification:**
 - Ensure proper handling of all components to avoid pinching or injury.
 - Be aware of the risk of eye injury from spent primers or debris.
 - Always wear appropriate protective eyewear when operating the press.
- **Avoiding Hazards:**
 - Do not overload the press with excessive materials.
 - Ensure that all dies are securely fastened before operation.
 - Never attempt to modify or disassemble the press while it is in use.
 - Do not operate the press with missing or damaged parts.
- **AgeSpecific Warnings:**
 - This product is intended for use by adults only. Keep out of reach of children.

Instructions for Installation and Usage

- **Installation:**
 1. Choose a stable and sturdy workbench to mount the press.
 2. Securely attach the press to the workbench using the provided mounting hardware.
 3. Ensure that all components are correctly assembled according to the manufacturer's instructions.
- **Usage:**
 1. Before starting, check that the area is clear of any obstructions.
 2. Load the appropriate dies into the upper die carrier and secure them with Lee Smart Lock bushings.
 3. Use the Auto drum powder measure according to the instructions provided.
 4. Manually feed cases through the loading port or use the automatic case inserter.

5. Ensure that the automatic priming system is functioning correctly before operation.
6. Operate the press using the provided combination tool rack for ease and safety.
7. After completing the reloading process, use the automatic case ejector to remove finished rounds safely.

Disposal Instructions

- Dispose of any spent primers and other waste materials in accordance with local regulations.
- Recycle packaging materials whenever possible.
- Ensure that any nonfunctional components are disposed of safely to prevent accidents.

Contact Information for Further Support

For further assistance, please refer to the manufacturer's website or customer service for support regarding safety inquiries, product recalls, or other concerns.

Thank you for your attention to these safety guidelines. Enjoy your reloading experience with the SIX PACK PRO PRESS KIT!
