

SIX PACK PRO PRESS KIT - LEE PRECISION SIX PACK PRO PRESS KIT 300 AAC BLACKOUT

[Reloading](#) > [Reloading Presses](#) > [Progressive Presses](#)

The culmination of nearly 40 years of progressive press design and production. Years of comments and suggestions have been incorporated into this new press. Pistol Six Pack Pro Kit includes: Six pack progressive press, Auto drum powder measure, shell plate, Universal case feed magazine, and Lee breech lock dies (carbide full length sizing die, powder through expanding die, bullet seating die, and instructions with load data). Carbide factory crimp die is sold separately, available as an accessory. Rifle Six Pack Pro Kit includes Six pack progressive press, Auto drum powder measure, shell plate, Universal case feed magazine, and Lee breech lock dies (full length sizing die, short charging die, easy adjust dead length bullet seating die, factory crimp die and instructions with load data). Features: Six stations allow any brand of die be used -- in line bullet feed dies, powder check dies and such. Simple and reliable automatic indexing -- just one moving part, replaceable in seconds, no tools required and never requires adjustment. Stroke and clearance sufficient for largest magnum rifle cases. Uses the same all steel linkage found on our Classic Cast 50 BMG press. Massive 28.4mm ram glides through 82 mm of solid steel giving the ram over 7300 mm² of solid support. Spent primer tube collects dirty, gritty spent primers. All dies securely fastened in the upper die carrier with Lee Smart Lock bushings. No more turret or tool head to replace or move during use. Automatic priming system - simple, reliable and safe with any brand or size of primer. Primes at the bottom of stroke so all six stations are available for operations. Automatic case inserter works with any case. Cases can be manually fed through the convenient loading port. Includes the Lee case feed magazine, works with most hand gun cases and all AR rifle cases. Easy to set case retainers on every station. No springs, plugs or buttons to loose or tinker with. Cartridge changeover in seconds, including primer size with no adjustments. Automatic case ejector reliably whisks away your completed round to the ammo bin. Press includes combination tool rack, bin bracket, along with free ammo bin.

SIX PACK PRO PRESS KIT Safety Instructions

Introduction

Thank you for choosing the SIX PACK PRO PRESS KIT by Lee Precision. This product is designed to enhance your reloading experience with safety and efficiency in mind. Please read this safety instruction guide carefully to ensure safe and effective use of the press kit.

General Safety Guidelines

- Always use the press in a wellventilated area to avoid inhaling any dust or fumes.
- Keep the work area clean and organized to prevent accidents.
- Ensure that the press is securely mounted to a stable work surface before use.
- Wear appropriate safety gear, including safety glasses and gloves, to protect against potential hazards.
- Keep children and pets away from the work area to prevent accidents.
- Do not use the press for any purpose other than its intended use.
- Regularly inspect the press for any signs of wear or damage. If any issues are found, discontinue use immediately and contact support.

Specific Safety Precautions for Use

• Hazard Identification:

- Potential pinch points exist where moving parts may cause injury.
- Improper handling of reloading materials can lead to accidents.
- Ensure that all dies are securely fastened before operation to prevent them from loosening during use.

• Avoiding Hazards:

- Always keep hands clear of moving parts during operation.
- Follow all manufacturer instructions regarding the use of dies and accessories.
- Do not exceed the recommended load specifications for the press.
- Store all reloading materials in a secure location, away from children and unauthorized users.

• AgeRelated Warnings:

- This product is intended for use by individuals aged 18 and older. Ensure that younger individuals are supervised when using the press.

Instructions for Installation and Usage

1. Installation:

- Select a sturdy, flat work surface to mount the press.
- Use the provided hardware to securely attach the press to the work surface.
- Ensure that the press is level and stable before proceeding.

2. Setup:

- Install the desired dies into the upper die carrier using the Lee Smart Lock bushings. Ensure they are securely fastened.
- Attach the Auto drum powder measure, ensuring it is correctly calibrated for your reloading needs.
- Load the Universal case feed magazine according to the manufacturer's instructions.

3. Operation:

- Begin by manually cycling the press to familiarize yourself with its operation.
- Load cases into the press and ensure they are properly seated.
- Follow the reloading data provided with the Lee breech lock dies for correct powder and bullet specifications.
- Use the automatic priming system as instructed, ensuring primers are loaded correctly.
- After reloading, use the automatic case ejector to safely remove completed rounds.

4. Maintenance:

- Regularly clean the press to remove any debris or residue.
- Inspect moving parts for wear and replace them as necessary.
- Store the press in a dry location to prevent rust and corrosion.

Disposal Instructions

- Dispose of any unused or expired reloading materials in accordance with local regulations.
- Recycle packaging materials where possible to minimize environmental impact.
- If the press becomes damaged beyond repair, follow local guidelines for the disposal of metal and plastic components.

Contact Information for Further Support

For further assistance or inquiries regarding the SIX PACK PRO PRESS KIT, please consult the manufacturer's website or contact customer support directly. Ensure that you have your product details ready for a quicker response.

By following these safety instructions, you can ensure a safe and efficient reloading experience with the SIX PACK PRO PRESS KIT. Thank you for prioritizing safety in your reloading activities.
