

SIX PACK PRO PRESS KIT - LEE PRECISION SIX PACK PRO PRESS KIT 45 COLT

[Reloading](#) > [Reloading Presses](#) > [Progressive Presses](#)

The culmination of nearly 40 years of progressive press design and production. Years of comments and suggestions have been incorporated into this new press. Pistol Six Pack Pro Kit includes: Six pack progressive press, Auto drum powder measure, shell plate, Universal case feed magazine, and Lee breech lock dies (carbide full length sizing die, powder through expanding die, bullet seating die, and instructions with load data). Carbide factory crimp die is sold separately, available as an accessory. Rifle Six Pack Pro Kit includes Six pack progressive press, Auto drum powder measure, shell plate, Universal case feed magazine, and Lee breech lock dies (full length sizing die, short charging die, easy adjust dead length bullet seating die, factory crimp die and instructions with load data). Features: Six stations allow any brand of die be used -- in line bullet feed dies, powder check dies and such. Simple and reliable automatic indexing -- just one moving part, replaceable in seconds, no tools required and never requires adjustment. Stroke and clearance sufficient for largest magnum rifle cases. Uses the same all steel linkage found on our Classic Cast 50 BMG press. Massive 28.4mm ram glides through 82 mm of solid steel giving the ram over 7300 mm² of solid support. Spent primer tube collects dirty, gritty spent primers. All dies securely fastened in the upper die carrier with Lee Smart Lock bushings. No more turret or tool head to replace or move during use. Automatic priming system - simple, reliable and safe with any brand or size of primer. Primes at the bottom of stroke so all six stations are available for operations. Automatic case inserter works with any case. Cases can be manually fed through the convenient loading port. Includes the Lee case feed magazine, works with most hand gun cases and all AR rifle cases. Easy to set case retainers on every station. No springs, plugs or buttons to loose or tinker with. Cartridge changeover in seconds, including primer size with no adjustments. Automatic case ejector reliably whisks away your completed round to the ammo bin. Press includes combination tool rack, bin bracket, along with free ammo bin.

Attributes

- Name: [LEE PRECISION SIX PACK PRO PRESS KIT 45 COLT](#)

Safety Instruction Guide for the Lee Precision Six Pack Pro Press Kit

Introduction

Thank you for choosing the Lee Precision Six Pack Pro Press Kit. This guide provides essential safety instructions and information to ensure the safe and efficient use of your new progressive press. Please read this guide carefully before using the product.

General Safety Guidelines

- Always follow the manufacturer's instructions for safe operation.
- Ensure that the workspace is clean, welllit, and free of obstructions.
- Keep all tools and materials away from children and unauthorized users.
- Regularly inspect the press for any signs of wear or damage before use.
- Use only Lee Precision components and accessories designed for this press.
- Wear appropriate safety gear, including safety glasses and gloves, when operating the press.
- Do not use the press for any purpose other than its intended use.

Specific Safety Precautions for Use

- **Hazard Identification:**

- Risk of injury from moving parts during operation.
- Potential for eye injury from debris or projectiles.
- Risks associated with handling reloading materials and ammunition.

- **Avoiding Hazards:**

- Keep hands and clothing clear of moving parts when the press is in operation.
- Always operate the press with the appropriate safety gear.
- Do not overload the press beyond its specified capacity.
- Ensure that all dies are securely fastened before operating the press.
- Use caution when handling primers and powders to avoid spills and accidents.
- Follow proper procedures for the disposal of spent primers and other materials.

- **AgeSpecific Warnings:**

- This product is intended for use by adults only. Keep out of reach of children.
- Ensure that any individuals assisting with the operation are trained and aware of safety procedures.

Instructions for Installation and Usage

- **Installation:**

1. Choose a stable and level surface for the press installation.
2. Securely mount the press to the workbench using appropriate hardware.
3. Attach the Auto Drum Powder Measure and other components as per the manufacturer's instructions.
4. Ensure the press is properly aligned and all connections are tight before use.

- **Usage:**

1. Before starting, ensure that the workspace is clear and all necessary materials are within reach.
2. Set up the dies in the upper die carrier using Lee Smart Lock bushings.
3. Load the case feed magazine with appropriate cases.
4. Follow the instructions for the automatic priming system and ensure it is functioning correctly.
5. Begin the reloading process by cycling the handle smoothly and steadily.
6. Monitor the operation for any unusual sounds or movements.
7. After completing the operation, safely store all materials and tools.

Disposal Instructions

- Dispose of spent primers and any other reloading waste in accordance with local regulations.
- Do not dispose of hazardous materials in regular trash. Check with local authorities for proper disposal methods.
- Ensure that all packaging materials are recycled or disposed of responsibly.

Contact Information for Further Support

For any questions or concerns regarding the Lee Precision Six Pack Pro Press Kit, please consult the manufacturer's website or customer service for assistance.

By following these safety instructions, you can ensure a safe and enjoyable experience with your Lee Precision Six Pack Pro Press Kit. Thank you for your attention to safety!
