

BRAVO CHASSIS 9MM LUGER FOR SIG SAUER P320® - STRIKE INDUSTRIES BRAVO CHASSIS 9MM LUGER FOR SIG SAUER P320 BLACK

[Handgun Parts](#) > [Grip Parts](#) > [Grips](#)

The Strike Modular Chassis (SMC) - BRAVO for SIG Sauer P320 by Strike Industries is a new lite version of the MOST MODULAR P320 (SMC Alpha) Chassis in the WORLD at a fraction of the Alpha's price. Customer feedback was heavily weighed and taken into consideration when Strike Industries developed this chassis so when they say the Bravo was made with the user in mind, they mean it. The new SMC Bravo is made of Polymer Extreme™ which is durable and lightweight — intended to receive P320 FCU's and slides to complete the entire ensemble. This time around users can fully utilize their P320 optics-ready slides to effortlessly install their red dot sights! In terms of upgraded features in the Bravo, the ergonomics have improved with a textured grip which now includes a built-in flared magwell to assist with quick and smooth reloads. Strike Industries optional Ambidextrous Side Charging Handle with a Slide Cover Mount for the P320 is also compatible so each Bravo user can decide which side they want to rack the slide with. This chassis also more universally accepting of many different types of P320 magazines. Users will enjoy the integrated gas pedal above the Picatinny rail to help fight muzzle flip, allowing for faster follow-up shots. Derived from the SMC Alpha, the Bravo remains consistent as it comes with the SMC Rear Module Backstrap molded onto the new chassis as one solid piece. It offers users rear ambidextrous QD sockets and a Picatinny rail mount, perfect for attaching various accessories like their Strike Dual Folding Stock/Brace. The ambi QD sockets in the rear can be used with slings and can even have a lanyard or paracord strung through it (in case you want to hang this up somewhere quickly accessible). Whether you're looking to scratch that sci-fi itch, if you're a Sig fan, or just want a PDW option, the Bravo is a ton of fun and lives up to its hype. Get your SMC BRAVO today before they sell out! FEATURES Ambi QD sockets at the rear w/ loop-thru design so its possible to loop a lanyard or paracord. Built-in magwell for better magazine feeding. Flat magazine hole opening; this make the grip module able to use more different types of P320 magazines. Works with Ambidextrous Side Charging Handle with Slide Cover Mount. Extended picatinny rail located at front bottom of chassis and on Rear Module Backstrap for accessories. Compatible with optional Spare Magazine Holder for SIG SAUER P320 with SI Modular Magazine Release. SMC Bravo for SIG SAUER P320 uses SIG SAUER P320 OEM fitment takedown lever and P320 magazine release, SI Modular Magazine Release is pre-assembled and included. COMPATIBILITY: Calibers: 9mm/.357SIG/.40S&W FCU: All SIG SAUER P320 FCUs which include XSeries as well as M17/M18 with complete function of the manual safety. For SMC use with M17/M18 manual safeties, the notch on the chassis is visible and outlined as a guide for the modification needed to be performed for the manual safeties to be usable. Triggers: Strike Industries only guarantee proper fit and function with SIG SAUER OEM triggers. Strike Industries cannot guarantee safety and function on aftermarket triggers and components. The SMC is made to fit the OEM standards of the SIG SAUER FCU. Slide Lengths: The SMC will work with all P320 slides and barrel lengths but is best matched on the BRAVO for SIG SAUER P320 (Full-Size Length Slides) with 4.7" barrels or SIG SAUER P320 (Carry Size Length Slides) with 3.9" threaded barrels combined with a compensator. While the subcompact 3.6" barrel/slides will also work with the Bravo Strike Industries do not recommend

this as the frame would be longer than your slide even if it had a compensator. If you decide to use a slide shorter than the Full-Size length they highly recommend purchasing the Strike SMC Blast Shield to protect your support hand's thumb. Magazine Compatibility: P320 17-round, 18-round, 21-round and Full Size 10/17-round magazines Holsters: The SMC Bravo's general silhouette can fit in a variety of holsters, however, it depends on what accessories are installed (i.e. magholder, optic, light, charging handle) as kydex molds also vary between brands. NOT COMPATIBLE: 45ACP FCU/Calibers 10mm FCU/Calibers Compact 15 and 10-round magazines SMC Alpha frame mounted muzzle devices SMC Alpha Magwell WARNING: Be careful of thumb/hand placement near any moving parts on the Strike Module Chassis/grip module. Misuse or improper placement can cause disfigurement or death. Before every use, always check proper function and that all screws/hardware is secure. Maintain and check all screws/hardware and components regularly as preventative maintenance. Always have your weapon SAFE when not being fired. Always follow all firearms safety rules and never point your weapon at anything you are not willing to destroy. The user is responsible for the modification required to use the M17/M18 manual safeties. The Strike Modular Chassis (SMC) has a visible outline for the shape to fit the M17/M18 manual safeties. Strike Industries only recommends all work be done by a certified gunsmith. Be aware that once you remove material in the SMC chassis for the M17/M18 notch, you cannot go back and there will always be a notch for the manual safeties once the modification is done to the SMC chassis. DISCLAIMERS: Strike Industries are not lawyers and do not give any legal advice. Always be aware of federal, your state, and local laws. The Strike Modular Chassis (SMC) BRAVO for SIG SAUER P320 by Strike Industries is NOT A FIREARM. This is a grip module/chassis system made to work with SIG SAUER P320 FCU's and slides. Users will have to supply your own complete P320 slide w/ barrel, FCU, and magazine. The SMC BRAVO is not a serialized product. The Strike Mag Holder and Dual Folding Adapter are optional Strike Accessories that are compatible with the SMC BRAVO. Safety Instruction Guide for BRAVO CHASSIS 9MM LUGER FOR SIG SAUER P320

Introduction

Thank you for choosing the BRAVO CHASSIS 9MM LUGER FOR SIG SAUER P320 by Strike Industries. This product is designed to enhance your shooting experience while ensuring safety and functionality. Please read this guide carefully to understand the safety precautions and proper usage of the chassis.

General Safety Guidelines

- Always treat your firearm as if it is loaded.
- Keep your finger off the trigger until you are ready to shoot.
- Always point the firearm in a safe direction.
- Ensure the firearm is not loaded when installing or removing the chassis.
- Regularly inspect the chassis and all components for wear and damage.
- Store the chassis and firearm in a secure location away from unauthorized access, especially by children.
- Familiarize yourself with local laws and regulations regarding firearm accessories.

Specific Safety Precautions for Use

- Be cautious of thumb and hand placement near any moving parts on the chassis.
- Misuse or improper placement can cause injury or disfigurement.
- Always check that all screws and hardware are secure before use.
- Maintain and check all components regularly as part of preventive maintenance.
- The user is responsible for any modifications made to the chassis, especially for the M17/M18 manual safeties.
- Strike Industries recommends that modifications be performed by a certified gunsmith.

Instructions for Installation and Usage

1. Installation of the Chassis:

- Ensure your workspace is clean and free of obstructions.
- Remove the slide and magazine from your P320.
- Carefully remove the existing grip module from the FCU.
- Align the BRAVO chassis with the FCU and press firmly until it is securely attached.
- Reattach the slide and ensure proper fit and function.

2. Using the Chassis:

- Install your optics ready slide and ensure it is securely mounted.
- Utilize the ambidextrous side charging handle as per your preference.
- Practice safe handling and operation of the firearm at all times.

3. Magazine Compatibility:

- The BRAVO chassis is compatible with various P320 magazines (17round, 18round, 21round, and Full Size 10/17round).
- Ensure the magazine is properly seated in the magwell before use.

4. Maintenance:

- Regularly clean the chassis and inspect for any signs of wear or damage.
- Lubricate moving parts as necessary, following the manufacturer's recommendations.

Disposal Instructions

- Dispose of the chassis and any components responsibly, following local regulations for electronic waste and firearm accessories.
- Do not dispose of the chassis in regular household waste.

Contact Information for Further Support

For any questions or concerns regarding the BRAVO chassis, please refer to the manufacturer's website or customer service for assistance.

Conclusion

Your safety is our priority. By following these guidelines and instructions, you can ensure a safe and enjoyable experience with the BRAVO CHASSIS 9MM LUGER FOR SIG SAUER P320. Always remain vigilant and responsible in your firearm handling practices.
