Safety Instruction Guide for Strike Industries Aluminum Extended Magazine Plate for SIG SAUER P320

Introduction

Thank you for choosing the Strike Industries Aluminum Extended Magazine Plate for SIG SAUER P320. This product is designed to enhance your shooting experience while ensuring safety and compliance with EU regulations. Please read this guide carefully to understand how to use the product safely and effectively.

General Safety Guidelines

- Ensure that you follow all safety instructions provided in this guide.
- Always treat firearms and their accessories with respect and caution.
- Store the product in a safe and secure location, away from children and unauthorized users.
- Inspect the product regularly for any signs of wear or damage.
- Report any unsafe products or incidents to the relevant authorities.
- Check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- This product is designed for use with OEM SIG SAUER P320 magazines only.
- Ensure that the magazine plate is compatible with your magazine before use.
- Do not exceed the recommended torque of 7 in/lbs (0.79 nM) for the set screws to prevent damage.
- The extra power spring included is designed for the OEM 21round magazine. Using it with other magazines may result in improper function.
- Allow time for the magazine spring to break in for optimal capacity.
- Do not use the magazine plate with 10round magazines or aftermarket magazines such as ACT, ProMag, or ETS.

Instructions for Installation and Usage

1. Installation

- Ensure you have the following components:
 - x1 Aluminum Extended Magazine Plate for SIG SAUER P320 (9mm)
 - x1 Extended length spring for 21round magazine body
 - x2 Set screws (M4x3mm)
 - x1 Hex tool [2mm]
 - x1 Warning card
- Remove the existing base plate from your SIG SAUER P320 magazine.
- Install the extended length spring into the magazine body.
- Align the extended magazine plate with the magazine and press it into place.
- Secure the magazine plate using the provided set screws. Use the hex tool to tighten each screw to the recommended torque of 7 in/lbs (0.79 nM).

2. Usage

- Load the magazine with ammunition according to the manufacturer's instructions.
- Always check that the magazine is properly secured in the firearm before use.
- Practice safe handling and storage of the firearm and magazine at all times.

Disposal Instructions

- Dispose of the product in accordance with local regulations regarding aluminum and firearm accessories.
- Do not dispose of the product in regular household waste.
- Consider recycling the aluminum components to minimize environmental impact.

Contact Information for Further Support

For any safety inquiries or support regarding the Strike Industries Aluminum Extended Magazine Plate for SIG SAUER P320, please reach out to the designated EU contact point provided on the product packaging or the official website.

Thank you for your attention to these safety guidelines. Your safety and satisfaction are our top priorities. Enjoy your enhanced shooting experience!
