

COLLET NECK SIZER DIES - LEE PRECISION .300 H&H & .300 WEATHERBY MAG COLLET NECK SIZING DIE ONLY

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

There is no loading system that will load more accurate ammunition than Lee Collet Dies. A collet squeezes the case neck against a precision mandrel for a perfect fit with minimum run-out. No lube case is needed. Cases last ten times longer, so the savings on only 35 cases will pay for the dies.

COLLET NECK SIZER DIES LEE PRECISION .300 H&H & .300 WEATHERBY MAG

Introduction

Thank you for choosing the COLLET NECK SIZER DIES from LEE PRECISION. This product is designed to provide exceptional accuracy in ammunition loading. Please read this safety instruction guide carefully to ensure safe use and compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Always handle ammunition and reloading equipment with care.
- Keep the dies out of reach of children and vulnerable individuals.
- Regularly inspect the product for any signs of damage or wear.
- Follow all local laws and regulations regarding ammunition reloading.
- Report any unsafe products or accidents to the appropriate authorities.
- Check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Always wear safety glasses when using reloading equipment to protect your eyes.
- Use the dies in a wellventilated area to avoid inhaling any dust or fumes.
- Do not exceed the recommended load specifications for your ammunition.
- Ensure that the die is securely installed in the reloading press before use.
- Avoid using excessive force when sizing cases to prevent damage to the die or cases.
- Keep your workspace clean and organized to minimize the risk of accidents.
- Do not leave the reloading process unattended.

Instructions for Installation and Usage

1. Installation of the Die

- Ensure that the reloading press is turned off and unplugged.
- Select the appropriate collet neck sizing die for your cartridge (.300 H&H or .300 Weatherby Magnum).
- Securely attach the die to the reloading press according to the manufacturer's instructions.
- Adjust the die to the desired depth for sizing.

2. Preparation of Cases

- Inspect each case for damage or signs of wear before reloading.
- Clean the cases thoroughly to remove any debris or residue.
- Ensure that the cases are dry before proceeding with the sizing process.

3. Sizing Process

- Insert the case into the die and ensure it is properly aligned.
- Operate the reloading press to apply pressure to the collet, which will size the neck of the case against the precision mandrel.
- Release the pressure and remove the sized case from the die.
- Repeat the process for each case, ensuring consistent sizing.

4. PostUse Care

- Clean the die after use to remove any residue or debris.
- Store the die in a safe, dry place away from moisture and extreme temperatures.
- Regularly check the die for wear and replace as necessary.

Disposal Instructions

- Dispose of any worn or damaged dies according to local regulations.
- Do not dispose of ammunition components in regular household waste.
- Consider recycling options for metal components where available.

Contact Information for Further Support

For any questions or concerns regarding the COLLET NECK SIZER DIES or safety instructions, please refer to the manufacturer's website or contact their customer service for assistance.

By following these guidelines, you can ensure a safe and effective reloading experience. Thank you for your attention to safety, and happy reloading!
