# Safety Instruction Guide for STEEL 3DIE PISTOL DIE SETS LEE PRECISION 9X21MM

## Introduction

Thank you for choosing the Lee Steel 3Die Pistol Die Set for your reloading needs. This product is designed to provide you with the tools necessary for safe and efficient ammunition reloading. Please read this safety instruction guide carefully to ensure proper use and compliance with safety standards.

## General Safety Guidelines

- Ensure that you are familiar with the reloading process and the specific requirements for the 9x21mm cartridge.
- Always use this product in a wellventilated area to avoid inhalation of any dust or fumes.
- Keep the die set and all reloading components out of reach of children and unauthorized users.
- Wear appropriate personal protective equipment (PPE), such as safety glasses and gloves, when handling reloading materials.
- Regularly inspect your equipment for wear and damage. Do not use any damaged components.
- Follow all local laws and regulations regarding ammunition reloading and usage.

## Specific Safety Precautions for Use

- Always ensure that cases are properly lubed before sizing, as the dies are made of steel and can cause damage to the cases if they are dry.
- Doublecheck that you are using the correct die for the specific operation (sizing, seating, or expanding).
- Never exceed the recommended load data for the 9x21mm cartridge. Refer to the provided load data for guidance.
- Avoid distractions while reloading. Focus on the task at hand to prevent accidents.
- Keep your work area clean and organized to minimize the risk of accidents and ensure efficient workflow.

## Instructions for Installation and Usage

### 1. Setup:

- Gather all necessary tools and components, including the die set, universal shell holder, powder dipper, and any additional reloading equipment.
- Ensure your reloading press is securely mounted and stable.

### 2. Installation of Dies:

- Install the Full Length Sizing Die into your reloading press according to the manufacturer's instructions.
- Follow with the Bullet Seating Die and Powder Through Expanding Die, ensuring they are securely tightened.

### 3. Using the Dies:

- Lubricate your cases before inserting them into the Full Length Sizing Die. This will prevent damage to both the die and the cases.
- Insert the lubed case into the shell holder and operate the press to size the case.
- After sizing, use the Powder Through Expanding Die to charge the case with powder. Ensure you follow the proper load data.
- Finally, use the Bullet Seating Die to seat the bullet to the desired depth.

#### **4. PostUse:**

- After reloading, clean the dies and store them in a dry place to prevent rust and damage.
- Dispose of any unused materials and waste according to local regulations.

## **Disposal Instructions**

- Dispose of all reloading materials, including spent cases and unused powder, in accordance with local environmental regulations.
- Do not dispose of materials in regular household waste. Check with local authorities for proper disposal methods.

## **Contact Information for Further Support**

For any questions or concerns regarding the safety and use of the Lee Steel 3Die Pistol Die Set, please contact the manufacturer or a qualified professional in your area. Always prioritize safety and compliance with local laws and regulations.

Thank you for your attention to these safety guidelines. Enjoy your reloading experience safely and responsibly.
