

# **DXT2 BIG DOT SUPPRESSOR HGT NIGHT SIGHTS FOR GLOCK 17/19/22/45 - XS SIGHT SYSTEMS DXT2 BIG DOT SUPPRESSOR HEIGHT FOR GLOCK 17/19/22/31 ORANGE**

[Handgun Parts](#) > [Sights](#) > [Sight Sets](#)

XS DXT2 Big Dot Night Sights offer the best front sight visibility in all lighting conditions. DXT2 Big Dot sights drive focus to the front sight using an industry leading large, high-contrast front and a low profile V-notch rear. DXT2 Big Dot front sights use a patent pending glow dot that absorbs light and glows in low light levels before it is dark enough to see the tritium. Optic Orange is designed to offer a high-contrast sight picture when shooting in bright light conditions and maintain its visibility in decreasing light levels. To ensure visibility in low light when uncharged, optic orange is primarily based on yellow with a hint of red. The increased surface area of the convex dot increases light absorption, intensifying the charge of the glow properties of the dot. The dot-the "i" sight picture, with a tritium dot in the front sight and a tritium bar in the rear, prevents confusing the front and rear sight in high-stress situations. In most gunfights, the victim and attacker are both moving and the victim's focus is drawn to the threat. The wide field of view increases visibility of the front sight and of the threat downrange. Outside Diameter Big Dot 0.188"; fits in common holsters. Installation might require filing to fit sight to dovetail, especially with Walther PDP. Fits Glock models 17, 19, 22, 23, 24, 26, 27, 31, 32, 33, 34, 35, 36; Taurus G3c, GX4, and new producton G3; Walther PDP and new production CCP M2. Suppressor Height and lower third co-witnesses with Glock factory cut and RMR. Do not use sight press/pusher tool.

## **Attributes**

# DXT2 Big Dot Suppressor Height Night Sights for Glock 17/19/22/45 Safety Instructions

## Introduction

Thank you for choosing the DXT2 Big Dot Suppressor Height Night Sights from XS Sight Systems. These sights are designed to enhance your shooting experience by providing superior visibility in various lighting conditions. This guide outlines essential safety instructions to ensure safe usage and installation of the product in compliance with the EU General Product Safety Regulation (GPSR).

## General Safety Guidelines

- Ensure that the product is suitable for your specific firearm model before installation.
- Always handle firearms with care and follow all safety protocols associated with gun handling.
- Keep the sights and your firearm away from children and unauthorized users.
- Regularly check for any signs of wear or damage to the sights to ensure they function correctly.
- Report any unsafe products or incidents to the appropriate authorities.

## Specific Safety Precautions for Use

- Only use the DXT2 Big Dot Night Sights with compatible Glock models (17, 19, 22, 23, 24, 26, 27, 31, 32, 33, 34, 35, 36) as well as Taurus G3c, GX4, and Walther PDP.
- Be aware that the sights are designed for use in lowlight conditions; ensure that you are familiar with their function before relying on them in critical situations.
- Avoid using the sights in conditions where visibility is severely compromised, as this may affect your accuracy.
- If you experience any issues with the sights, cease use immediately and consult with a qualified professional.

## Instructions for Installation and Usage

### 1. Installation Process:

- Ensure your firearm is unloaded and pointed in a safe direction.
- Remove the existing sights from your Glock using appropriate tools.
- Align the DXT2 Big Dot sights with the dovetail and gently press them into place.
- Note: Installation may require filing to fit the sight to the dovetail, especially with Walther PDP.
- Do not use a sight press/pusher tool as it may damage the sights.
- Confirm that the sights are securely installed and properly aligned before use.

### 2. Usage Guidelines:

- Familiarize yourself with the sight picture. The DXT2 sight features a tritium dot in the front sight and a tritium bar in the rear.
- Practice using the sights in a controlled environment to ensure you are comfortable with their operation.
- Always maintain focus on the front sight while aiming to enhance accuracy.

## Disposal Instructions

- Dispose of any damaged or nonfunctional sights according to local regulations for electronic waste and firearm accessories.
- Ensure that all components are removed from your firearm before disposal.

## Contact Information for Further Support

For any safety inquiries or further assistance regarding the DXT2 Big Dot Night Sights, please refer to the manufacturer's contact information provided with your product packaging.

## Conclusion

Your safety is paramount when using the DXT2 Big Dot Suppressor Height Night Sights. By following these guidelines and precautions, you can ensure a safe and effective shooting experience. Always remain vigilant and responsible when handling firearms and their accessories.
