

DXT2 BIG DOT SUPPRESSOR HGT NIGHT SIGHTS FOR GLOCK 17/19/22/45 - XS SIGHT SYSTEMS DXT2 BIG DOT SUPPRESSOR HEIGHT FOR GLOCK 17/19/22/31 YELLOW

[Handgun Parts](#) > [Sights](#) > [Sight Sets](#)

XS DXT2 Big Dot Night Sights offer the best front sight visibility in all lighting conditions. DXT2 Big Dot sights drive focus to the front sight using an industry leading large, high-contrast front and a low profile V-notch rear. DXT2 Big Dot front sights use a patent pending glow dot that absorbs light and glows in low light levels before it is dark enough to see the tritium. Optic Orange is designed to offer a high-contrast sight picture when shooting in bright light conditions and maintain its visibility in decreasing light levels. To ensure visibility in low light when uncharged, optic orange is primarily based on yellow with a hint of red. The increased surface area of the convex dot increases light absorption, intensifying the charge of the glow properties of the dot. The dot-the "i" sight picture, with a tritium dot in the front sight and a tritium bar in the rear, prevents confusing the front and rear sight in high-stress situations. In most gunfights, the victim and attacker are both moving and the victim's focus is drawn to the threat. The wide field of view increases visibility of the front sight and of the threat downrange. Outside Diameter Big Dot 0.188"; fits in common holsters. Installation might require filing to fit sight to dovetail, especially with Walther PDP. Fits Glock models 17, 19, 22, 23, 24, 26, 27, 31, 32, 33, 34, 35, 36; Taurus G3c, GX4, and new produciton G3; Walther PDP and new production CCP M2. Suppressor Height and lower third co-witnesses with Glock factory cut and RMR. Do not use sight press/pusher tool.

DXT2 Big Dot Suppressor Height Night Sights

Safety Instructions

Introduction

Thank you for choosing the DXT2 Big Dot Suppressor Height Night Sights for your Glock. These sights are designed to enhance your shooting experience by providing superior visibility in various lighting conditions. This safety instruction guide is intended to help you understand how to use, install, and maintain your night sights safely and effectively.

General Safety Guidelines

- Always treat your firearm as if it is loaded, even if you believe it is not.
- Ensure that you are familiar with the operation of your firearm and the specific model of night sights you are using.
- Keep your night sights clean and free from obstructions to ensure optimal performance.
- Store your firearm and accessories in a secure location, away from children and unauthorized users.
- Regularly check for any signs of wear or damage to your night sights and replace them if necessary.
- Follow all local laws and regulations regarding firearm ownership and usage.

Specific Safety Precautions for Use

- Ensure proper installation of the sights to avoid misalignment, which can lead to inaccurate shooting.
- Do not use the sights if they appear damaged or if the glow dot is not functioning as expected.
- Avoid using the night sights in extreme weather conditions, such as heavy rain or snow, which may impair visibility.
- Be aware of your surroundings and ensure a safe shooting environment when using your firearm.
- If you experience any issues with the sights, cease usage immediately and consult a qualified gunsmith.

Instructions for Installation and Usage

Installation Instructions

1. **Prepare Your Tools:** Gather the necessary tools, including a sight pusher (do not use a sight press/pusher tool) and any files you may need for fitting.
2. **Remove Existing Sights:** Carefully remove the existing sights from your Glock using the appropriate tools.
3. **Fit the New Sights:**
 - Align the DXT2 Big Dot sights with the dovetail on your Glock.
 - If necessary, file the sight to fit snugly in the dovetail.
4. **Secure the Sights:** Ensure that the sights are firmly in place and do not move when handled.
5. **Check Alignment:** Verify that the sights are aligned properly for accurate aiming.

Usage Instructions

- **Aiming:** Use the dotthe"i" sight picture, which consists of a tritium dot in the front sight and a tritium bar in the rear, to prevent confusion during highstress situations.
- **Visibility:** The optic orange front sight is designed for high contrast in bright conditions and maintains visibility in decreasing light levels.
- **Practice:** Regularly practice shooting with your new sights to become accustomed to their unique sight picture and ensure effective use in real scenarios.

Disposal Instructions

When it is time to dispose of your DXT2 Big Dot Night Sights, please follow these guidelines:

- Dispose of the sights in accordance with local regulations regarding electronic waste and firearms accessories.
- Do not dispose of the sights in regular household waste.
- Consider recycling options if available in your area.

Contact Information for Further Support

For any questions regarding your DXT2 Big Dot Night Sights, please refer to the manufacturer's website or customer support resources. Ensure you have your product details on hand for the most efficient assistance.

Thank you for your attention to these safety instructions. Enjoy your enhanced shooting experience with the DXT2 Big Dot Suppressor Height Night Sights!
