Introducing the Tyrant CNC IntelliFire™ Trigger System for SIG SAUER P365. What could be better than a SIG SAUER P365? How about a P365 with the Tyrant CNC IntelliFire™ dual safety blade action trigger, with a solid 90 degree break AND 30% less pre-travel/take up! The SIG SAUER P365 has made waves in the concealed carry world, revered for its compact size and powerful punch. Whether you're a seasoned professional or an everyday carrier, reliability is key. The Tyrant CNC IntelliFire™ Trigger System, specifically tailored for the P365, pushes the boundaries of what you can expect from aftermarket trigger enhancements. In the realm of firearm customization, the trigger plays a pivotal role, influencing both the firearm's performance and the safety of its operator. Although a capable and favored handgun, the Sig P365 lacks the traditionally-used safety feature; the trigger safety. Tyrant CNC, fully recognizing the importance and demand for additional safety features, crafted the IntelliFire™ Trigger System with aerospace-like precision, ensuring it integrates seamlessly with the SIG SAUER P365. Crafted for Durability and Precision Built to withstand the daily rigors of use and ensure peak performance, the trigger boasts a robust 12L14 steel body. Lightweight 6061 aluminum safety blades further accentuate its durability and precision. A Stainless steel and heat-treated internal spring ensures reliability of use that will outlive the firearms duty cycle. Safety First: A Dual Safety Blade System Safety in firearms is non-negotiable. The standout feature of this trigger is its patent-pending dual safety blade system. The OEM Grip module of the P365 offers only a narrow window of clearance, making traditional safety blade designs impossible to function. This is where the genius of Tyrant CNC shines. Through innovative geometry and a specialized spring, the IntelliFire™ safety blade system utilizes a 3:1 lever ratio in order to clear the grip module when activated. However, if the front blade remains undepressed, the rear blade will directly impact the 365 Grip Module preventing the firing pin from dropping and enhancing safety. Reduced Pre-Travel & Hybrid Ergonomics The trigger facilitates a 30% reduction in pre-travel, ensuring a smoother and quicker shooting experience without compromising on safety. Further enhancing the user experience, Tyrant CNC incorporates its signature hybrid trigger ergonomics, featuring a flat face with a subtle bottom curve – the ideal blend for optimal performance. Experience a consistent break at the 90 degree angle, making your initial AND follow up shots the closest groupings you can have. With the Tyrant CNC IntelliFire™ Trigger System, you're investing in unmatched engineering and an unwavering focus on safety. Elevate your confidence in daily or concealed carry, especially for those favoring appendix carry, and arm your SIG SAUER P365 with cutting-edge trigger technology.

**FEATURES** Platform: Sig-Sauer Designed For Models: P365 Fitment Notes Works with standard SIG SAUER P365 variants Drop in replacement Works with Aftermarket Grip Modules \*May not be compatible with California Compliant P365 models with manual magazine disconnect feature installed\* First ever trigger safety system for SIG P365, patent-pending technology 30% reduced trigger pre-travel (maximum that can be done without disengaging SIG internal safety) 90 degree break for maximum consistency on initial AND follow-up shots Stainless steel trigger body, aluminum safety blades

## Attributes

- Name: [TYRANT CNC INTELLIFIRE TRIGGER FOR SIG SAUER P365 BLACK W/GRAY BLADES](#)
- Manufacturer: [TYRANT CNC](#)
- Product no.: 430109510
- Mfr. No.: TD-P365-TRIG-BLACK-GREY
- Finish: Black
- Model: P365
- Style: Drop-In,Replacement
- Weapon type: Sig Sauer
- Delivery weight: 0.018kg
- Shipping height: 102mm
- Shipping width: 6mm
- Shipping length: 114mm
- UPC: 612789319275

## Item details

Made in USA

US export classification: 0A501.c

# Safety Instruction Guide for the Tyrant CNC IntelliFire™ Trigger System for SIG SAUER® P365

## Introduction

Thank you for choosing the Tyrant CNC IntelliFire™ Trigger System for your SIG SAUER P365. This guide provides essential safety information, installation instructions, and usage recommendations to ensure a safe and effective experience with your new trigger system.

## General Safety Guidelines

- Always treat your firearm as if it is loaded, even if you believe it to be unloaded.
- Keep your finger off the trigger until you are ready to shoot.
- Always point the firearm in a safe direction, away from yourself and others.
- Store your firearm and ammunition separately and securely to prevent unauthorized access.
- Regularly inspect your firearm and trigger system for any signs of wear or damage.
- Follow all local laws and regulations regarding firearm ownership and usage.
- Ensure that you are familiar with the operating manual of your SIG SAUER P365.

## Specific Safety Precautions for Use

- The Tyrant CNC IntelliFire™ Trigger System is designed for use with the SIG SAUER P365 only. Do not attempt to use it with other firearm models.
- Ensure that the trigger system is installed correctly before use. Improper installation may lead to malfunctions or unsafe conditions.
- Do not modify or alter the trigger system in any way, as this can compromise safety and performance.
- Be aware of the dual safety blade system and understand its function. Ensure it is operational before using the firearm.
- Always practice safe handling and shooting techniques when using your firearm with the new trigger system.
- If you experience any issues with the trigger system, cease use immediately and consult a qualified gunsmith.

## Instructions for Installation and Usage

### Installation Instructions

1. **Safety First:** Ensure that your firearm is unloaded and pointed in a safe direction.
2. **Remove the Existing Trigger:** Follow the manufacturer's instructions to safely remove the existing trigger from your SIG SAUER P365.
3. **Install the IntelliFire™ Trigger:**
  - Align the Tyrant CNC IntelliFire™ Trigger with the trigger housing.
  - Securely attach the trigger system according to the provided installation guide.
4. **Check Functionality:** After installation, check the trigger's functionality by ensuring that the dual safety blade system operates correctly.
5. **Test the Trigger:** Before using the firearm, conduct a function test in a safe environment to ensure proper operation.

### Usage Instructions

- Familiarize yourself with the trigger's features, including the 90degree break and reduced pretravel.
- When ready to shoot, ensure the dual safety blade system is engaged.
- Maintain a proper grip and stance while firing to maximize control and accuracy.

## **Disposal Instructions**

- Dispose of the product in accordance with local regulations regarding electronic and mechanical waste.
- Do not dispose of the product in household waste. Check for local recycling programs that accept firearm components.

## **Contact Information for Further Support**

For any questions or concerns regarding the Tyrant CNC IntelliFire™ Trigger System, please refer to the manufacturer's website or your point of purchase for assistance.
