

# AR-15/M16 MOE RL CARBINE STOCK - MAGPUL MOE RL COLLAPSIBLE MIL-SPEC CARBINE STOCK FOR AR-15 BLACK

[Rifle Parts](#) > [Stock Parts](#) > [Buttstocks](#)

The MOE RL (Reversed Lever) Carbine Stock is a streamlined, A-frame design that replaces OEM stocks and provides clean aesthetics and ease of use. The easily accessible, unobtrusive, reversed adjustment lever is inset into the front of the stock, allowing the stock's length of pull to be adjusted in overall length from 10.65" to 13.85". The stock also offers a slightly increased cheek-weld area for enhanced shooter comfort. Combining these two aspects of the MOE RL Carbine stock allows shooters to adjust the LOP on the fly if necessary while maintaining a positive check weld; this keeps the shooter locked into the gun and promotes continued situational awareness. To further increase shooter comfort, the MOE RL Stock is compatible with the SL Enhanced Rubber Butt-Pad so shooters can use the recoil pad that best fits their circumstances. For sling attachment, the RL includes an ambidextrous M-LOK slot in the rear of the stock that functions as a footman's loop or a space to attach an M-LOK QD Sling Mount. Made in the USA. Streamlined adjustment lever Permits LOP adjustment without breaking the shooter's cheek weld Classic A-frame style Provides rigid structure for strength Improved Cheek Weld Slightly increased surface area for improved cheek weld Adaptable and configurable to various shooting scenarios Adjustable LOP (10.65" to 13.85") For sling attachment, includes an M-LOK slot that acts as footman's loop or a space for an M-LOK QD Sling Mount Accepts both SL extended butt-pads and DT Carbine stock butt-pads Platform: AR10, AR15, M4, M16, M110, SR25 Compatibility: Will not interfere with single-point slings attached to ASAP or ASAP QD receiver end plates. Mil-Spec sized carbine receiver extension tube (not included) from manufacturers such as Colt, LMT, Ruger, S&W, SIG, and others\*

\*Specifications based on standard-length (flat-back) M4 Carbine receiver extension and may vary depending on tube manufacturer. NOTE: There are two basic sizes of M4 Carbine receiver extensions (buffer tubes): Mil-Spec and Commercial-Spec. The DT Carbine Stock will only fit with the common Mil-Spec tube.

## Attributes

- Name: [MAGPUL MOE RL COLLAPSIBLE MIL-SPEC CARBINE STOCK FOR AR-15 BLACK](#)
- Manufacturer: [MAGPUL](#)
- Product no.: 430110108
- Mfr. No.: MAG1440-BLK

# Safety Instruction Guide for the AR15/M16 MOE RL Carbine Stock

## Introduction

Thank you for choosing the AR15/M16 MOE RL Carbine Stock by Magpul. This product is designed to enhance your shooting experience while ensuring safety and comfort. Please read this safety instruction guide carefully to understand the proper use, installation, and disposal of this product, in compliance with the EU General Product Safety Regulation (GPSR).

## General Safety Guidelines

- Ensure that the product is used in accordance with the manufacturer's instructions.
- Regularly inspect the stock for any signs of wear or damage before each use.
- Keep the stock and all associated equipment out of the reach of children and unauthorized users.
- Always treat firearms as if they are loaded and follow all safety protocols when handling firearms.
- Report any unsafe products or accidents to the appropriate authorities.
- Check for recall updates on the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Do not attempt to modify the stock in any way, as this may compromise its safety and functionality.
- Ensure that the stock is properly installed on a compatible MilSpec carbine receiver extension tube.
- Be mindful of the adjustment lever when making changes to the length of pull; ensure that your fingers are clear of moving parts.
- Use only compatible accessories, such as the SL Enhanced Rubber ButtPad, to maintain safety standards.
- When using the sling attachment, ensure that it is secure to prevent accidental detachment during use.

## Instructions for Installation and Usage

### Installation

1. **Check Compatibility:** Ensure that your carbine receiver extension tube is MilSpec sized.
2. **Remove Existing Stock:** If applicable, remove the existing stock from your firearm.
3. **Attach the MOE RL Stock:**
  - Align the stock with the receiver extension tube.
  - Slide the stock onto the tube until it is securely in place.
  - Tighten any necessary screws or adjustments to ensure the stock is firmly attached.
4. **Adjust Length of Pull:**
  - Locate the reversed adjustment lever at the front of the stock.
  - Pull the lever to unlock the stock, then slide it to the desired length (between 10.65" and 13.85").
  - Release the lever to lock the stock in place.

### Usage

- **Cheek Weld:** Ensure a proper cheek weld by positioning your cheek against the stock for improved stability and comfort.
- **Sling Attachment:** Use the ambidextrous MLOK slot located at the rear of the stock to attach your sling securely.
- **Maintenance:** Regularly clean the stock with a damp cloth and mild soap to remove dirt and debris. Avoid using harsh chemicals that may damage the material.

## Disposal Instructions

- Dispose of the product in accordance with local regulations for plastic materials.
- Do not dispose of the product in household waste. Instead, consider recycling options available in your area.
- If the product is damaged beyond repair, contact local waste management services for proper disposal guidance.

## Contact Information for Further Support

For safety inquiries or further assistance regarding the AR15/M16 MOE RL Carbine Stock, please refer to the manufacturer's website or customer service resources.

Thank you for prioritizing safety while using the AR15/M16 MOE RL Carbine Stock. Your adherence to these guidelines will contribute to a safer shooting experience.
