

MARK 7 POWDER CHECK ALARM - LYMAN MARK 7 POWDER CHECK ALARM DIE BLACK

[Reloading](#) > [Reloading Dies](#) > [Replacement Parts & Upgrades](#)

The Powder Check Alarm will sound an audible alarm if a grossly incorrect powder level is detected inside the case. A must-have for people who want full confidence that every round produced has powder. Includes inserts for both pistol and rifle applications. Designed to work with any manual press. Not recommended for automated applications, due to the sensor not being able to stop the press. For automated applications please see Lyman's 101-1038 Digital Powder Check.

MARK 7 POWDER CHECK ALARM Safety Instructions

Introduction

Thank you for choosing the MARK 7 POWDER CHECK ALARM. This product is designed to enhance your reloading safety by providing an audible alarm when a grossly incorrect powder level is detected inside the case. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

General Safety Guidelines

- Ensure the product is used in accordance with the manufacturer's instructions.
- Always check the product for any visible damage before use.
- Keep the product out of reach of children and vulnerable individuals.
- Report any unsafe conditions or accidents to the appropriate authorities.
- Regularly check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- **Risk of Incorrect Powder Levels:** The Powder Check Alarm is designed to alert users to incorrect powder levels. Always doublecheck your powder measurements manually.
- **Not for Automated Applications:** This product is not recommended for automated applications due to the inability of the sensor to stop the press. For automated applications, consider using Lyman's 1011038 Digital Powder Check.
- **Use with Manual Press Only:** Ensure that this product is used exclusively with manual presses as intended.
- **Hearing Protection:** The audible alarm may be loud. Consider using hearing protection if you are sensitive to loud noises.

Instructions for Installation and Usage

1. Installation:

- Ensure the manual press is turned off and unplugged before installation.
- Follow the included instructions to attach the Powder Check Alarm to your manual press securely.
- Insert the appropriate insert for either pistol or rifle applications as needed.

2. Usage:

- Turn on the Powder Check Alarm before starting your reloading process.
- Conduct a manual check of the powder level in the case prior to using the alarm.
- Monitor the audible alarm during the reloading process. If the alarm sounds, stop immediately and check the powder level.
- After use, turn off the Powder Check Alarm and store it in a safe place.

Disposal Instructions

- Dispose of the product according to local regulations for electronic waste.
- Do not dispose of the product in regular household waste.
- Check with local authorities for specific disposal guidelines related to electronic devices.

Contact Information for Further Support

For any inquiries regarding the safety and use of the MARK 7 POWDER CHECK ALARM, please refer to the manufacturer's official website or customer service channels for assistance.

By following these safety instructions, you can ensure a safe and effective experience with your MARK 7 POWDER CHECK ALARM. Thank you for prioritizing safety in your reloading activities.
