

RAPTOR 9MM CALIBER (0.355") PISTOL BULLETS - CUTTING EDGE BULLETS RAPTOR 9MM CALIBER (0.355") LEAD FREE HP 90GR 50/BOX

[Reloading](#) > [Bullets](#) > [Pistol Bullets](#)

This 90 grain HG Raptor designed for 9mm handguns is an excellent choice for hunting or personal protection applications. After 1.5 - 2" of penetration four blades are engineered to shear off and radiate out in a star pattern while the Blunt Trauma Base continues to penetrate 14 - 16" in ballistic gel. This action greatly increases trauma and stopping power. This solid copper bullet features Cutting Edge's patented SealTite® band technology and is 100% lead free. WARNING: DO NOT USE IN .380 AUTO SPECS: Caliber: 9mm Weight: 90 Grains Required Twist Rate: OAL: .609 Projection Length: .380 Min Impact Velocity Required for Expansion: 950fps

Safety Instruction Guide for RAPTOR 9MM CALIBER (0.355") PISTOL BULLETS

Introduction

Thank you for choosing the RAPTOR 9MM CALIBER (0.355") PISTOL BULLETS by Cutting Edge Bullets. This product is designed for hunting and personal protection applications. It is crucial to read and understand this safety instruction guide to ensure safe handling and usage of the bullets.

General Safety Guidelines

- Always treat every firearm as if it is loaded.
- Store ammunition in a cool, dry place, away from direct sunlight and moisture.
- Keep ammunition out of reach of children and unauthorized individuals.
- Use appropriate personal protective equipment (PPE), such as safety glasses and hearing protection, when handling or shooting firearms.
- Follow all local laws and regulations regarding the use and storage of ammunition.
- Report any unsafe products or accidents to the relevant authorities.
- Regularly check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- **Age Restrictions:** This product is intended for use by individuals who are 18 years or older. Ensure that minors do not have access to this product.
- **Warning:** DO NOT USE IN .380 AUTO. Ensure that you are using the correct firearm that is compatible with 9mm ammunition.
- **Penetration Risks:** The bullets are designed to penetrate ballistic gel up to 14 16 inches. Ensure that the shooting environment is safe and that there are no people or animals in the line of fire.
- **Blunt Trauma:** The design of the bullet includes a Blunt Trauma Base that increases stopping power. Be aware of the potential for increased trauma to targets.
- **Environmental Considerations:** As these bullets are leadfree, they are safer for the environment. However, follow local guidelines for disposal and recycling of spent ammunition.

Instructions for Installation and Usage

• Loading the Firearm:

1. Ensure the firearm is pointed in a safe direction.
2. Open the action of the firearm and visually inspect the chamber to confirm it is clear.
3. Load the RAPTOR 9MM CALIBER bullets into the magazine according to the manufacturer's instructions.
4. Insert the magazine into the firearm and close the action.

• Shooting:

1. Always wear appropriate PPE.
2. Take a stable shooting stance and ensure your grip on the firearm is secure.
3. Aim at your intended target and ensure the area is clear of people and obstacles.
4. Squeeze the trigger gently to fire the bullet.

• PostShooting:

1. After shooting, always check the firearm to ensure it is unloaded.

2. Store any remaining ammunition securely.

Disposal Instructions

- Follow local regulations for the disposal of spent cartridges and ammunition.
- Do not discard bullets or cartridges in regular trash. Instead, use designated hazardous waste facilities if available.
- Check with local authorities for recycling programs for spent ammunition.

Contact Information for Further Support

For any safety inquiries or further assistance regarding the RAPTOR 9MM CALIBER bullets, please refer to the manufacturer's website or contact their customer support. Ensure you have the product details and any relevant information ready for a more efficient response.

Thank you for prioritizing safety while using RAPTOR 9MM CALIBER (0.355") PISTOL BULLETS. Stay safe and responsible in your shooting activities.
