STRIKE FSA SINGLE FOLDER STOCK EDITION BLACK

[Rifle Parts](#) > [Stock Parts](#) > [Buttstocks](#)

STRIKE FSA SINGLE FOLDER STOCK EDITION The Stock Single Folder still utilizes the same arm and stock end piece as SI's Dual Folder it has a strengthened hinge made of steel, instead of aluminum, making it extremely robust. The fitment is also perfect with little to no play when extended and folded. This folder only folds to a single side but can do so at any time without reconfiguring or using a button. When the hinge is installed to fold left, users will experience similar muscle memory if they've already used their Dual Folder - the action is the same to fold. Simply lift up on the arm and fold to the left. In its folded position, the arm can be forcefully thrown back into the extended position for quick deployment with no risk of damage to the hinge thanks to its new beefed-up design. At the 3 and 9 o'clock positions there are two QD points located on the stock end piece for attaching your favorite sling. The Strike Single Folding Adapter is compatible with any weapon platform that has a rear-facing 1913 Picatinny rail. To attach, tighten the hex screw in the hinge adapter onto a pic rail. Look no further for a compact, lightweight, and reliable single folder! (On its own, the Single folder is 11oz. With a Cheek Riser it weighs 12.41oz) FEATURES: Pre-assembled folding stock Extremely positive and strong lock Quick deployment Mounts directly to 1913 Picatinny rails with M5 screw and locking plate 2 QD sling points Folds single side anytime without any reconfiguring hinge or button Adds 8.66" (219.9mm) to overall weapon length in operating position Adds 0.8" (20.30mm) to overall weapon length in folded position SI custom high-strength polymer stock/stabilizer ends Compatible with FSA Cheek Riser NOTE: Lubrication of hinge needed for routine maintenance. TORQUE: It may vary depending on if you are attaching this to an aluminum or polymer picatinny rail. For the picatinny mount screw on aluminum rails do not exceed 40 in/lbs (4.5Nm) For the picatinny mount screw on polymer rails do not exceed 35 in/lbs (4.0Nm) PACKAGE CONTENTS: 1 - Strike Single Folding Stock 1 - Torx tool [T27] 1 - Warning Card

Safety Instruction Guide for STRIKE FSA SINGLE FOLDER STOCK EDITION

Introduction

Thank you for choosing the STRIKE FSA SINGLE FOLDER STOCK EDITION. This product is designed to enhance your shooting experience while ensuring safety and reliability. Please read this safety instruction guide carefully to understand how to use, maintain, and dispose of this product safely.

General Safety Guidelines

- Ensure that the product is used in accordance with all applicable laws and regulations.
- Regularly inspect the product for any signs of wear or damage before use.
- Always handle firearms and accessories with care and respect.
- Keep the product out of reach of children and unauthorized users.
- Report any unsafe products or accidents to appropriate authorities.
- Stay informed about any recall notices by checking the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Ensure the stock is securely attached to your weapon platform before use.
- Do not exceed the recommended torque specifications when installing the stock.
- Lubricate the hinge regularly as part of routine maintenance to ensure smooth operation.
- Avoid using the product if it shows any signs of damage or malfunction.
- Always fold the stock away from your body to prevent injury during operation.
- Be aware of your surroundings and ensure a safe environment when deploying the stock.
- Do not attempt to modify the product in any way, as this may compromise safety.

Instructions for Installation and Usage

Installation

1. **Prepare the Weapon Platform:** Ensure that your weapon platform has a rearfacing 1913 Picatinny rail.
2. **Attach the Stock:**
 - Align the hinge adapter with the Picatinny rail.
 - Secure the stock by tightening the hex screw in the hinge adapter onto the rail.
 - For aluminum rails, do not exceed 40 in/lbs (4.5Nm) of torque.
 - For polymer rails, do not exceed 35 in/lbs (4.0Nm) of torque.
3. **Check Stability:** Ensure that the stock is firmly attached and does not move or wobble.

Usage

1. **Folding and Unfolding:**
 - To fold the stock, lift up on the arm and fold it to the left.
 - To deploy the stock, forcefully throw the arm back into the extended position.
2. **Sling Attachment:** Use the two QD points located on the stock end piece to attach your favorite sling.
3. **Weight Consideration:** The Single Folder weighs 11oz on its own and 12.41oz with a Cheek Riser.

Disposal Instructions

- Dispose of the product according to local regulations for plastic and metal waste.
- Do not burn the product, as it may release harmful substances.
- If the product is damaged beyond repair, consider recycling components where possible.

Contact Information for Further Support

For any inquiries regarding safety or product issues, please refer to the manufacturer's website or your point of purchase for assistance.

Thank you for your attention to these safety instructions, and enjoy your experience with the STRIKE FSA SINGLE FOLDER STOCK EDITION.
