SPB MUZZLE BRAKE 0.280 1/2-28 THREADS SQUARE SHOULDER BLACK

[Rifle Parts](#) > [Muzzle Devices](#) > [Compensators & Muzzle Brakes](#)

SPB MUZZLE BRAKES These fit the plan B type mounts. Always use an alignment rod to ensure that the entire system is set up correctly. Make sure all surfaces are cleaned and the muzzle device has been torqued and Rockset to the barrel. Use on a Q can voids your warranty, be warned. Torque the muzzle device to approximately 15-25ft lbs. Make sure the muzzle device is square against the shoulder. When setting the silencer on the muzzle device, ensure that the threads and tapers are clean. Torque the suppressor to 10 ft lbs. Ensure alignment. Enjoy. The nitride finish does lead to a tighter seal, with that said, it is extremely important to torque and rockset your muzzle device to the barrel properly. FEATURES: 17-4 PH H900 Atlas and Atlas XL Compatible Plan B Compatible Atlas Adapter Overrun Approximately 1.050" Atlas XL Adapter No Overrun Black Nitride Finish (67 HRC Surface Hardness) Shims Included* EXCEPT *Shims not included with the SR25/M110 or 11/16x24

SPB Muzzle Brake Safety Instructions

Introduction

Thank you for choosing the SPB Muzzle Brake by Rearden Manufacturing Group LLC. This product is designed to enhance the performance of your firearm while ensuring safety during operation. Please read this safety instruction guide carefully to ensure the safe use and installation of your muzzle brake.

General Safety Guidelines

- Always follow local laws and regulations regarding firearm accessories.
- Ensure that the muzzle brake is compatible with your firearm before use.
- Inspect the muzzle brake for any damage before installation.
- Keep the muzzle brake out of reach of children and unauthorized users.
- Report any unsafe products or accidents to the relevant authorities.
- Regularly check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Use an alignment rod when installing the muzzle brake to ensure proper setup.
- Ensure all surfaces are clean before installation to avoid misalignment.
- Torque the muzzle device to approximately 1525 ft lbs to secure it properly.
- Ensure the muzzle device is square against the shoulder to prevent gas leakage.
- When attaching a silencer, ensure that the threads and tapers are clean.
- Torque the suppressor to 10 ft lbs and ensure proper alignment.
- Avoid using the muzzle brake on a Q can, as this may void your warranty.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools, including an alignment rod and torque wrench.
- Ensure the firearm is unloaded and pointed in a safe direction.

2. Installation Steps:

- Clean the surface of the barrel where the muzzle brake will be attached.
- Align the muzzle brake with the barrel using the alignment rod.
- Torque the muzzle brake to 1525 ft lbs to secure it firmly.
- Ensure the muzzle brake is square against the shoulder of the barrel.

3. Attaching a Silencer:

- Clean the threads and tapers of both the muzzle brake and the silencer.
- Carefully screw the silencer onto the muzzle brake.
- Torque the suppressor to 10 ft lbs and check for proper alignment.

4. Final Checks:

- Inspect the installation to ensure everything is secure and aligned.
- Perform a function check on the firearm to ensure proper operation.

Disposal Instructions

- Dispose of any packaging materials in accordance with local waste management regulations.
- If the muzzle brake is damaged or no longer in use, follow local guidelines for the disposal of metal products.

Contact Information for Further Support

For any questions or concerns regarding the SPB Muzzle Brake, please contact the manufacturer directly. Ensure you have your product details ready for a more efficient response.

Thank you for your attention to these safety instructions. Enjoy the enhanced performance of your firearm with the SPB Muzzle Brake.
