SPB Muzzle Brake Safety Instruction Guide

Introduction

Thank you for choosing the SPB Muzzle Brake from Rearden Manufacturing Group LLC. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of your muzzle brake. Please read this document carefully before installation and use.

General Safety Guidelines

- Ensure that all safety precautions are followed during the installation and use of the muzzle brake.
- Always use an alignment rod to guarantee correct setup of the entire system.
- Keep all surfaces clean before installation to prevent any malfunction.
- The muzzle device must be properly torqued and secured with Rockset to the barrel.
- Using this product on a Q can may void your warranty; proceed with caution.
- Regularly check for wear and tear and ensure that the muzzle device remains securely attached.

Specific Safety Precautions for Use

- **Hazard Identification:**

- Improper installation may lead to equipment failure or personal injury.
- Ensure that the muzzle device is square against the shoulder to prevent misalignment.
- Always check the threads and tapers for cleanliness before attaching the suppressor.

- **AgeRelated Warnings:**

- This product is intended for adult users only. Keep out of reach of children.

- **Usage Guidelines:**

- Torque the muzzle device to approximately 1525 ft lbs.
- Torque the suppressor to 10 ft lbs to ensure proper alignment.
- Regularly inspect the muzzle brake for any signs of damage or wear.

Instructions for Installation and Usage

1. Preparation:

- Gather necessary tools, including an alignment rod and torque wrench.
- Ensure your workspace is clean and free from obstructions.

2. Installation Steps:

- Clean the barrel and muzzle device surfaces thoroughly.
- Align the muzzle brake with the barrel using the alignment rod.
- Secure the muzzle device by torquing it to 1525 ft lbs.
- Apply Rockset to ensure a secure bond to the barrel.
- Check that the muzzle device is square against the shoulder.

3. Attaching the Suppressor:

- Before attaching the suppressor, ensure that the threads and tapers are clean.
- Torque the suppressor to 10 ft lbs.

- Verify alignment and ensure that everything is securely in place.

4. PostInstallation Check:

- Conduct a visual inspection to ensure all components are correctly installed.
- Test the setup in a safe environment to confirm proper functionality.

Disposal Instructions

- Dispose of any packaging materials in accordance with local regulations.
- If the muzzle brake becomes damaged or is no longer in use, follow local guidelines for the disposal of metal products.
