## RPB MUZZLE BRAKE 0.280 1/2-28 THREADS SQUARE SHOULDER BLACK

[Rifle Parts](#) > [Muzzle Devices](#) > [Compensators & Muzzle Brakes](#)

RPB MUZZLE BRAKES These fit the plan B type mounts. Always use an alignment rod to ensure that the entire system is set up correctly. Make sure all surfaces are cleaned and the muzzle device has been torqued and Rockset to the barrel. Use on a Q can voids your warranty, be warned. Torque the muzzle device to approximately 30 ft lbs. Make sure the muzzle device is square against the shoulder. When setting the silencer on the muzzle device, ensure that the threads and tapers are clean. Torque the suppressor to 10 ft lbs. Ensure alignment. Enjoy. The nitride finish does lead to a tighter seal, with that said, it is extremely important to torque and rockset your muzzle device to the barrel properly. FEATURES: 17-4 PH H900 Atlas and Atlas XL Compatible Plan B Compatible Atlas Adapter Overrun Approximately 1.050" Atlas XL Adapter No Overrun Nitride Shims Included

# RPB Muzzle Brake Safety Instructions

## Introduction

Thank you for choosing the RPB Muzzle Brake by Rearden Manufacturing Group LLC. This document provides essential safety guidelines and instructions to ensure the safe and effective use of your product. Please read this guide carefully before installation and use.

## General Safety Guidelines

- Always follow the manufacturer's instructions for installation and use.
- Ensure the product is suitable for your firearm and complies with local laws and regulations.
- Inspect the muzzle brake regularly for any signs of wear or damage.
- Keep the muzzle brake out of reach of children and unauthorized users.
- Report any unsafe products or accidents to the appropriate authorities.
- Check for recall updates on the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Use only on firearms that are compatible with the RPB Muzzle Brake.
- Always use an alignment rod during installation to ensure proper setup.
- Ensure all surfaces are clean before installation.
- Torque the muzzle device to approximately 30 ftlbs to ensure a secure fit.
- Use Rockset to secure the muzzle device to the barrel.
- Do not use the muzzle device on a Q can, as this will void your warranty.
- When attaching the suppressor, torque it to 10 ftlbs and ensure alignment.
- The nitride finish enhances sealing; ensure proper torque and Rockset application.
- If you experience any unusual sounds or performance issues, cease use immediately and consult a professional.

## Instructions for Installation and Usage

### 1. Preparation

- Gather all necessary tools: alignment rod, torque wrench, Rockset, and cleaning supplies.
- Ensure your workspace is clean and free from distractions.

### 2. Installation Steps

- Clean the barrel and muzzle device surfaces thoroughly.
- Align the muzzle brake with the barrel using the alignment rod.
- Torque the muzzle device to approximately 30 ftlbs.
- Apply Rockset to the threads of the muzzle device.
- Ensure that the muzzle device is square against the shoulder.
- Attach the suppressor to the muzzle device, ensuring threads and tapers are clean.
- Torque the suppressor to 10 ftlbs and check alignment.

### 3. PostInstallation Checks

- Inspect the installation for any misalignments or loose components.
- Test the firearm in a safe and controlled environment to ensure proper function.

## **Disposal Instructions**

- Dispose of the RPB Muzzle Brake in accordance with local regulations.
- Do not dispose of the product in household waste.
- For specific disposal instructions, contact local waste management authorities.

## **Contact Information for Further Support**

For inquiries about product safety, installation, or usage, please refer to the contact information provided with your product packaging or visit our website.

By following these safety instructions, you help ensure the safe and effective use of the RPB Muzzle Brake. Thank you for your attention to these important guidelines. Enjoy your shooting experience safely!
