Introducing the Tyrant CNC IntelliFire™ Trigger System for SIG SAUER P365. What could be better than a SIG SAUER P365? How about a P365 with the Tyrant CNC IntelliFire™ dual safety blade action trigger, with a solid 90 degree break AND 30% less pre-travel/take up! The SIG SAUER P365 has made waves in the concealed carry world, revered for its compact size and powerful punch. Whether you're a seasoned professional or an everyday carrier, reliability is key. The Tyrant CNC IntelliFire™ Trigger System, specifically tailored for the P365, pushes the boundaries of what you can expect from aftermarket trigger enhancements. In the realm of firearm customization, the trigger plays a pivotal role, influencing both the firearm's performance and the safety of its operator. Although a capable and favored handgun, the Sig P365 lacks the traditionally-used safety feature; the trigger safety. Tyrant CNC, fully recognizing the importance and demand for additional safety features, crafted the IntelliFire™ Trigger System with aerospace-like precision, ensuring it integrates seamlessly with the SIG SAUER P365. Crafted for Durability and Precision Built to withstand the daily rigors of use and ensure peak performance, the trigger boasts a robust 12L14 steel body. Lightweight 6061 aluminum safety blades further accentuate its durability and precision. A Stainless steel and heat-treated internal spring ensures reliability of use that will outlive the firearms duty cycle. Safety First: A Dual Safety Blade System Safety in firearms is non-negotiable. The standout feature of this trigger is its patent-pending dual safety blade system. The OEM Grip module of the P365 offers only a narrow window of clearance, making traditional safety blade designs impossible to function. This is where the genius of Tyrant CNC shines. Through innovative geometry and a specialized spring, the IntelliFire™ safety blade system utilizes a 3:1 lever ratio in order to clear the grip module when activated. However, if the front blade remains undepressed, the rear blade will directly impact the 365 Grip Module preventing the firing pin from dropping and enhancing safety. Reduced Pre-Travel & Hybrid Ergonomics The trigger facilitates a 30% reduction in pre-travel, ensuring a smoother and quicker shooting experience without compromising on safety. Further enhancing the user experience, Tyrant CNC incorporates its signature hybrid trigger ergonomics, featuring a flat face with a subtle bottom curve - the ideal blend for optimal performance. Experience a consistent break at the 90 degree angle, making your initial AND follow up shots the closest groupings you can have. With the Tyrant CNC IntelliFire™ Trigger System, you're investing in unmatched engineering and an unwavering focus on safety. Elevate your confidence in daily or concealed carry, especially for those favoring appendix carry, and arm your SIG SAUER P365 with cutting-edge trigger technology.

FEATURES Platform: Sig-Sauer Designed For Models: P365 Fitment Notes Works with standard SIG SAUER P365 variants Drop in replacement Works with Aftermarket Grip Modules *May not be compatible with California Compliant P365 models with manual magazine disconnect feature installed* First ever trigger safety system for SIG P365, patent-pending technology 30% reduced trigger pre-travel (maximum that can be done without disengaging SIG internal safety) 90 degree break for maximum consistency on initial AND follow-up shots Stainless steel trigger body, aluminum safety blades

Attributes

- Name: [TYRANT CNC INTELLIFIRE TRIGGER FOR SIG SAUER P365 BLACK W/RED BLADES](#)

Safety Instruction Guide for Tyrant CNC IntelliFire™ Trigger System for SIG SAUER P365

Introduction

Thank you for choosing the Tyrant CNC IntelliFire™ Trigger System for your SIG SAUER P365. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of your new trigger system. Please read this document carefully before installation and use.

General Safety Guidelines

- Always treat your firearm as if it is loaded, even if you believe it is not.
- Ensure that the firearm is pointed in a safe direction at all times.
- Always keep your finger off the trigger until you are ready to shoot.
- Be aware of your surroundings and ensure that your shooting area is safe.
- Use appropriate eye and ear protection when handling or shooting your firearm.
- Store your firearm and trigger system securely, out of reach of children and unauthorized users.
- Regularly inspect your firearm and trigger system for signs of wear or damage.
- Follow all local laws and regulations regarding firearm ownership and modifications.

Specific Safety Precautions for Use

- The Tyrant CNC IntelliFire™ Trigger System is designed for use with the SIG SAUER P365. Do not attempt to use it with any other firearm model.
- Ensure that the trigger system is properly installed before use. Refer to the installation instructions provided in this guide.
- The dual safety blade system is a key feature of this trigger. Always ensure that both safety blades are functioning correctly before using the firearm.
- Do not modify or attempt to disassemble the trigger system. Doing so may result in malfunction or unsafe operation.
- If you experience any issues with the trigger system, do not attempt to troubleshoot on your own. Seek professional assistance.

Instructions for Installation and Usage

Installation Instructions

1. **Preparation:** Ensure that your SIG SAUER P365 is unloaded and safe to handle.
2. **Remove the Existing Trigger:** Follow the manufacturer's instructions to safely remove the existing trigger from your firearm.
3. **Install the IntelliFire™ Trigger:**
 - Align the Tyrant CNC IntelliFire™ Trigger System with the trigger housing of the P365.
 - Ensure that the dual safety blades are correctly positioned within the grip module.
 - Secure the trigger system according to the manufacturer's instructions.
4. **Check Functionality:** After installation, perform a safety check to ensure that the trigger system operates correctly. Verify that the dual safety blade system functions as intended.
5. **Final Inspection:** Inspect the installation for any visible issues. Ensure that all components are securely in place.

Usage Instructions

- Before using your firearm, familiarize yourself with the operation of the Tyrant CNC IntelliFire™ Trigger System.
- Practice safe handling and shooting techniques at all times.

- Always ensure that the trigger system is functioning properly before each use.
- If you experience any malfunction or irregular operation, cease use immediately and consult a qualified gunsmith.

Disposal Instructions

- Dispose of the Tyrant CNC IntelliFire™ Trigger System in accordance with local regulations.
- Do not discard the trigger system in regular household waste.
- Contact local authorities for guidance on proper disposal methods for firearm accessories.

Contact Information for Further Support

For any safety inquiries or support related to the Tyrant CNC IntelliFire™ Trigger System, please refer to the manufacturer's website or customer support resources.

By following these safety instructions and guidelines, you can ensure a safe and enjoyable experience with your Tyrant CNC IntelliFire™ Trigger System for SIG SAUER P365. Thank you for prioritizing safety and responsible firearm ownership.
