

# TAKE DOWN LEVER FOR SPRINGFIELD® HELLCAT/HELLCAT PRO - TYRANT CNC TAKE DOWN LEVER FOR SPRINGFIELD HELLCAT GRAY

[Handgun Parts](#) > [Frame Parts](#) > [Disassembly Parts](#) > [Levers & Latches](#)

Designed with precision and functionality at its core, the Springfield Armory Hellcat Takedown Lever manufactured by Tyrant CNC is an engineering marvel crafted for enthusiasts who demand the best in their firearms. Their takedown lever is purpose-built to enhance the user's experience with the Springfield Hellcat and Hellcat Pro handguns. So, whether you're an operator in the field or a firearm enthusiast, this is the upgrade you've been waiting for.

**Material & Manufacture:** At Tyrant CNC, Tyrant Designs understand the importance of durability and performance. That's why this takedown lever is molded from 17-4 stainless steel, known for its strength and corrosion resistance. Once formed, each piece undergoes a bead-blasting process, giving it a uniform and aesthetically pleasing matte finish. But they didn't stop there. The lever then receives a PVD (Physical Vapor Deposition) finish, further enhancing its durability and resistance to wear, corrosion, and oxidation. The result? A takedown lever that's not just tough but is built to last a lifetime.

**Design & Functionality:** One of the standout features of this lever is its 2x raised surface, complemented by meticulously crafted serrations that pay homage to the OEM. These design elements don't just add to its visual appeal but play a crucial role in functionality. The increased surface area coupled with the texture provides a superior grip, whether it's for a thumb rest or ensuring that the operator can swiftly and safely engage or disengage the lever, even under challenging conditions. This is a significant improvement over the factory model, which may sometimes feel slippery or inadequate. Additionally, their engineers have introduced subtle yet impactful radius changes to the design. These modifications ensure smoother operation, making the takedown process seamless and efficient. If you've ever felt the factory Hellcat & Hellcat Pro takedown lever was a bit stiff or abrasive, you'll immediately notice the difference with the Tyrant CNC's version.

**Holster Compatibility:** For operators and enthusiasts, the compatibility of aftermarket parts with existing equipment is often a concern. Tyrant Design have taken this into consideration. Despite its dimensional growth, enhanced features and superior design, this takedown lever remains fully compatible with standard holsters.

This means you won't have to invest in new equipment or compromise on your carry options. **Conclusion:** The Springfield Armory Hellcat and Hellcat Pro Takedown Lever by Tyrant CNC isn't just another aftermarket part; it's a testament to what's possible when engineering meets operational expertise. If you own a Springfield Hellcat or Hellcat Pro and are looking to elevate your firearm's performance, look no further. With its unparalleled durability, enhanced functionality, and seamless compatibility, it's the perfect upgrade for the discerning operator.

**FEATURES**  
**Platform:** Springfield Designed For  
**Models:** Hellcat, Hellcat Pro  
**Fitment Notes:** Works on all Springfield Armory Hellcat series firearms ( regular, Pro, RDP, etc etc) Works with most OWB and IWB Holsters  
Polished radius groove for smoother action  
Larger surface area for easier manipulation  
**Vertical Serrations Component:** Takedown Lever

# Safety Instruction Guide for TAKE DOWN LEVER FOR SPRINGFIELD® HELLCAT/HELLCAT PRO

## Introduction

Thank you for choosing the TAKE DOWN LEVER FOR SPRINGFIELD® HELLCAT/HELLCAT PRO manufactured by Tyrant CNC. This product is designed to enhance your firearm experience while ensuring safety and reliability. Please read this safety instruction guide carefully to understand how to use, install, and maintain your takedown lever safely.

## General Safety Guidelines

- Always treat your firearm and its components as if they are loaded.
- Ensure that you are in a safe environment when handling firearms.
- Keep the takedown lever out of reach of children and unauthorized users.
- Regularly inspect the takedown lever and your firearm for any signs of wear or damage.
- Follow all local laws and regulations regarding firearm modifications and usage.
- Report any unsafe products or accidents to the appropriate authorities.
- Check for recall updates on the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Ensure the firearm is unloaded before installing or using the takedown lever.
- Be cautious of sharp edges during installation and handling.
- Avoid using excessive force when operating the takedown lever to prevent damage or injury.
- Do not modify or alter the takedown lever in any way, as this may compromise its safety and functionality.
- If you experience any difficulties with the lever, consult a qualified gunsmith for assistance.

## Instructions for Installation and Usage

### Installation

1. **Ensure Safety:** Confirm that the firearm is unloaded and pointed in a safe direction.
2. **Remove the Factory Takedown Lever:** Using appropriate tools, carefully remove the existing takedown lever from the firearm.
3. **Install the Tyrant CNC Takedown Lever:**
  - Align the new takedown lever with the designated slot on the firearm.
  - Gently press or tap the lever into place until it is securely fitted.
4. **Test Functionality:** Once installed, ensure that the lever operates smoothly without excessive force.

### Usage

- To engage the takedown lever:
  - Position your thumb on the raised surface.
  - Apply a firm but controlled pressure to disengage it.
- To disengage the lever:
  - Follow the same procedure in reverse, ensuring that the lever returns to its original position smoothly.

## Disposal Instructions

- Dispose of any removed parts in accordance with local regulations regarding firearm components.

- If you no longer need the takedown lever, contact your local waste management authority for proper disposal methods.

## **Contact Information for Further Support**

For any inquiries regarding the safety and functionality of the TAKE DOWN LEVER FOR SPRINGFIELD® HELLCAT/HELLCAT PRO, please refer to the manufacturer's website or your local authorized dealer for assistance.

Thank you for prioritizing safety and for choosing our product. Your responsible usage contributes to a safer environment for all firearm enthusiasts.
