

# SEATER DIES - REDDING SEATER DIE 6MM GT

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Redding Seating Die includes bullet guide, built-in crimp ring and the proper seating plug. All dies are made using the finest alloy steels obtainable and machined on Hardinge Super-Precision lathes capable of holding the tightest tolerances in the industry. Heat treated in atmospherically controlled furnaces and hand polished for smooth, flawless functioning, these dies will maintain tolerances and last a lifetime. Inspected and ultrasonically cleaned before packaging.

## Safety Instruction Guide

### Introduction

Thank you for choosing the Redding Seating Die 6mm GT. This product is designed for reloading ammunition and provides high precision and reliability. To ensure safe and effective use, please read this safety instruction guide carefully.

### General Safety Guidelines

- Always follow manufacturer instructions for safe handling and use of reloading equipment.
- Ensure that the work area is clean, welllit, and free from distractions.
- Wear appropriate personal protective equipment (PPE) such as safety glasses and gloves when handling reloading components.
- Keep the product out of reach of children and unauthorized users.
- Regularly inspect the die for any signs of wear or damage before use.
- Report any unsafe products or accidents to the relevant authorities.

### Specific Safety Precautions for Use

- Use only the recommended cartridges and components specified for this die.
- Avoid using excessive force when seating bullets, as this may damage the die or result in improper seating.
- Do not attempt to modify or alter the die in any way.
- Store the die in a secure location when not in use to prevent unauthorized access.
- Ensure that you are familiar with the reloading process and have received proper training if necessary.
- Be aware of the potential hazards associated with handling ammunition components.

### Instructions for Installation and Usage

#### 1. Installation:

- Clean the die and the reloading press before installation.
- Securely mount the die in the reloading press according to the manufacturer's instructions.
- Adjust the die to the desired depth for bullet seating.

#### 2. Usage:

- Prepare your cartridge cases according to standard reloading procedures.
- Insert the bullet into the cartridge case.
- Place the cartridge in the die and apply pressure to seat the bullet.
- Check the overall length of the cartridge after seating to ensure it meets specifications.
- Repeat the process for additional cartridges as needed.

### Disposal Instructions

- Dispose of any unused or damaged components in accordance with local regulations.
- Do not dispose of reloading materials in regular household waste.
- Contact local waste management authorities for proper disposal methods for hazardous materials.

## **Contact Information for Further Support**

For any questions or concerns regarding the Redding Seating Die 6mm GT, please refer to the manufacturer's website or contact their customer service for assistance.

Thank you for prioritizing safety while using the Redding Seating Die. Your adherence to these guidelines ensures a safe and effective reloading experience.
