Safety Instruction Guide for LEWIS LEAD REMOVER FOR RIFLES & SHOTGUNS

Introduction

Thank you for choosing the Lewis Lead Remover for Rifles & Shotguns. This product is designed to effectively remove lead and wad fouling from your firearm without damaging the bore or rifling. To ensure safe and effective use of this product, please read and follow the safety instructions outlined in this guide.

General Safety Guidelines

- Always ensure that your firearm is unloaded before using the lead remover.
- Keep the product out of reach of children and vulnerable individuals.
- Use the product only for its intended purpose, as described in the product specifications.
- Be aware of potential hazards associated with using cleaning products, including skin and eye irritation.
- In case of an emergency or an unsafe product incident, report it to the appropriate authorities.
- Stay informed about product recalls by checking the EU's Safety Gate platform regularly.

Specific Safety Precautions for Use

- Use gloves when handling brass patches to avoid skin irritation.
- Avoid direct contact with the eyes; if contact occurs, rinse thoroughly with water and seek medical attention if irritation persists.
- Ensure proper ventilation when using the product to avoid inhalation of any particles.
- Do not use the lead remover on firearms that are not compatible with its specifications.
- Follow the manufacturer's instructions carefully to avoid accidents and ensure optimal performance.

Instructions for Installation and Usage

1. Preparation:

- Ensure that your firearm is completely unloaded.
- Gather all necessary tools, including a cleaning rod with 832 threads.

2. Attaching the Patch:

- Take a brass patch from the pack and attach it to the cleaning rod.
- Ensure that the patch is securely fastened to prevent it from detaching during use.

3. Cleaning the Bore:

- Insert the cleaning rod with the attached brass patch into the bore of the firearm.
- Gently move the rod back and forth to scrub the bore, removing lead and plastic deposits.
- Avoid excessive force to prevent damage to the rifling.

4. PostCleaning:

- After cleaning, follow up with JB Bore Cleaner for a complete clean.
- Inspect the bore to ensure all deposits have been removed.

5. Storage:

- Store the lead remover and any cleaning supplies in a cool, dry place, away from children and pets.

- Ensure that all components are returned to their packaging to prevent loss.

Disposal Instructions

- Dispose of used brass patches and any other cleaning materials in accordance with local regulations.
- Do not dispose of cleaning materials in regular household waste; check for recycling or hazardous waste disposal options in your area.

Contact Information for Further Support

For any questions or concerns regarding the use of the Lewis Lead Remover or safety inquiries, please refer to the manufacturer's contact information provided on the packaging or product insert.

By following these safety guidelines and instructions, you can ensure a safe and effective cleaning experience with your Lewis Lead Remover for Rifles & Shotguns. Thank you for prioritizing safety and proper firearm maintenance.
