

HANDGUN PRO DIE PACKS - 9MM LUGER PRO DIE PACK

[Reloading](#) > [Reloading Dies](#) > [Handgun Dies](#)

Lyman Pro dies will set a new standard for reloading die performance! Designed for the tremendous volume of our Mark 7 presses, every aspect of these precision dies was carefully engineered for top performance. Of course, they work great in regular progressive presses as well as turret and single station presses. Our first consideration was the material of the dies. Our size, seat and crimp dies are all made of stainless steel which was chosen for its toughness and anti-corrosion qualities. No more rusted dies! Our sizing dies are equipped with highly polished carbide rings for the ultimate in wear resistance and reduced sizing force. In addition, the sizing dies are equipped with a springloaded decapping rod system to ensure that the primer is forcefully ejected from the primer pocket. Our rifle sets get our famous M die neck expander, with its famous two step expander plug for just the right amount of neck tension and case mouth flare. The pistol sets include our flare die which are designed to allow bullets to properly sit on the case mouth prior to seating. Next is our Micrometer Seating die. This seating die has a micrometer adjustable seating head for precision bullet seating length. Its floating bullet seating punch centers the bullet on the case and eliminates excessive run-out. Finally, each set is equipped with a taper crimp die (micrometer adjustable) to fully remove any case mouth flare and to provide improved bullet retention. Lyman Pro dies offer more features at a better price than any competitive dies available!

Attributes

- Name: [9MM LUGER PRO DIE PACK](#)
- Manufacturer: [LYMAN](#)
- Product no.: 539000225
- Mfr. No.: 7701000
- Cartridge: 9 mm Luger
- Die Style: 4-Die Set
- Delivery weight: 1.27kg
- Shipping height: 51mm
- Shipping width: 210mm

Safety Instruction Guide for HANDGUN PRO DIE PACKS 9MM LUGER PRO DIE PACK

Introduction

Thank you for choosing the HANDGUN PRO DIE PACKS 9MM LUGER PRO DIE PACK. This product has been designed with safety and performance in mind. Please read this safety instruction guide carefully to ensure safe and effective use of the product. Adhering to these guidelines will help you avoid potential hazards and ensure compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Always follow the manufacturer's instructions for use and maintenance.
- Store the product in a safe, dry place away from children and pets.
- Be aware of your surroundings and ensure that you are in a safe environment when using this product.
- Regularly inspect the product for any signs of damage or wear. Do not use if damaged.
- Report any unsafe products or accidents to the appropriate authorities.
- Check the EU Safety Gate platform for any recall updates related to this product.

Specific Safety Precautions for Use

- Always wear appropriate personal protective equipment (PPE) such as safety glasses and gloves when using reloading dies.
- Keep hands and face clear of the die during operation to avoid injury.
- Ensure that the press is securely mounted and stable before use.
- Do not exceed the recommended load limits for your reloading press.
- Use only compatible components (brass cases, primers, and bullets) as specified in the product guidelines.
- Be cautious of the potential for lead exposure when handling ammunition components. Wash hands thoroughly after use.
- Do not attempt to modify or alter the dies in any way.

Instructions for Installation and Usage

1. Installation

- Ensure that your reloading press is clean and free of debris.
- Follow the manufacturer's instructions to install the dies securely onto the reloading press.
- Adjust the sizing die to the desired settings according to the specifications provided.

2. Usage

- Begin by preparing your brass cases, ensuring they are clean and free of obstructions.
- Use the sizing die to resize the brass cases. Ensure proper alignment for effective resizing.
- Insert the primer into the primer pocket using the decapping rod system to ensure it is seated correctly.
- Use the flare die to create a slight flare at the case mouth to facilitate bullet seating.
- Adjust the micrometer seating die for precise bullet seating depth. Ensure the bullet is centered before seating.
- Finally, use the taper crimp die to remove any excess flare and secure the bullet in place.

3. Postusage

- After reloading, store the dies in a safe location to prevent damage.
- Clean the dies regularly to maintain performance and prevent corrosion.

Disposal Instructions

- Dispose of any defective or damaged dies according to local regulations.
- Do not dispose of in regular household waste. Check with local authorities for proper disposal methods for metal components.
- Recycle where possible to minimize environmental impact.

Contact Information for Further Support

For any inquiries or further assistance regarding the HANDGUN PRO DIE PACKS 9MM LUGER PRO DIE PACK, please refer to the manufacturer's contact details provided with your product packaging or visit their official website.

By following these guidelines, you can ensure a safe and efficient reloading experience. Thank you for your attention to safety, and enjoy using your HANDGUN PRO DIE PACKS!
