

# SINCLAIR STAINLESS STEEL PILOTS - SINCLAIR INTERNATIONAL PILOT STOP, STAINLESS STEEL, 44 CALIBER

[Reloading](#) > [Case Preparation](#) > [Flash Hole Tool Pilots](#)

We manufacture pilots for our flash hole tool and our Neck Thickness/Variance Gauge. Our pilots are precision machined from stainless steel on CNC turning centers to properly fit new, unfired case necks. Available for rifle and pistol cartridges from 22 thru 45 caliber. Not for use on .50 BMG. 50 BMG flash hole diameter is larger.

## Attributes

- Name: [SINCLAIR INTERNATIONAL PILOT STOP, STAINLESS STEEL, 44 CALIBER](#)
- Manufacturer: [SINCLAIR INTERNATIONAL](#)
- Product no.: 749000976
- Mfr. No.: X6429
- Caliber: 44 Caliber (.429-.430)
- Delivery weight: 0.005kg
- Shipping height: 1mm
- Shipping width: 89mm
- Shipping length: 89mm

# Safety Instruction Guide for SINCLAIR Stainless Steel Pilots

## Introduction

Thank you for choosing the SINCLAIR Stainless Steel Pilots. These precision machined tools are designed for use with our flash hole tool and Neck Thickness/Variance Gauge. To ensure safe and effective use of this product, please read and follow the safety instructions outlined in this guide.

## General Safety Guidelines

- Ensure that you understand how to use the product before operating it.
- Always handle the pilots with care to avoid injury.
- Use the pilots only for their intended purpose; do not modify them.
- Keep the pilots out of reach of children and vulnerable individuals.
- Regularly inspect the pilots for signs of wear or damage before use.
- Report any unsafe products or accidents to the relevant authorities.
- Check for recall updates on the EU Safety Gate platform.

## Specific Safety Precautions for Use

- Always wear appropriate personal protective equipment (PPE), such as safety glasses and gloves, when using the pilots.
- Ensure that the work area is clean and free of obstructions to prevent accidents.
- Do not use the pilots on .50 BMG cases, as the flash hole diameter is larger than the pilots can accommodate.
- Make sure the pilots are properly fitted to the case neck before use to avoid misalignment and potential accidents.
- Avoid using excessive force when inserting or removing the pilots to prevent damage to the product or injury.

## Instructions for Installation and Usage

### 1. Preparation:

- Gather all necessary tools and materials, including the SINCLAIR Stainless Steel Pilots and the flash hole tool or Neck Thickness/Variance Gauge.
- Ensure that your work area is welllit and organized.

### 2. Installation:

- Select the appropriate pilot size for the caliber you are working with (44 Caliber: .429.430).
- Insert the pilot into the flash hole tool or Neck Thickness/Variance Gauge, ensuring a snug fit.
- Doublecheck that the pilot is securely in place before proceeding.

### 3. Usage:

- Follow the manufacturer's instructions for the flash hole tool or Neck Thickness/Variance Gauge.
- Operate the tool gently and steadily, maintaining control at all times.
- After use, carefully remove the pilot and inspect it for any signs of damage.

### 4. PostUsage Care:

- Clean the pilots after each use to remove any debris or contaminants.
- Store the pilots in a safe, dry place away from direct sunlight and moisture.
- Regularly check the pilots for wear and replace them if necessary.

## **Disposal Instructions**

- Dispose of any damaged or worn pilots in accordance with local regulations.
- Do not dispose of the product in regular household waste. Instead, contact your local waste management authority for proper disposal methods.

## **Contact Information for Further Support**

For any questions or concerns regarding the use of the SINCLAIR Stainless Steel Pilots, please reach out to your local distributor or refer to the product packaging for additional resources.

By following these safety instructions, you can ensure a safe and effective experience with the SINCLAIR Stainless Steel Pilots. Thank you for your attention to these important guidelines.
