

NECK SIZING BUSHINGS - L.E. WILSON STEEL NECK SIZER DIE BUSHING .305

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Hardened stainless steel neck bushing from L.E. Wilson. Wilson makes their bushings in .001" increments. The size marked on them refers to the middle of the bushing, which is reamed with a .003" taper. Since the case neck only reaches the middle, a slightly tighter sizing can be achieved by turning the bushing over, with the markings facing toward the case (markings facing down). This is mainly an emergency step to be taken if the brass has hardened, springing back more, and will no longer hold the bullet; or for fine-tuning the sizing to provide less additional "squeeze" than using the next smaller bushing in the normal way. Made to similar specs to the Redding neck bushings. Will not interchange with Forster or RCBS dies. Brownells Gun Tech™ Tip: There are two ways to select the steel neck bushings you need: (1) Measure the outside neck diameter of your loaded cartridge and subtract .002" to .003". This allows approximately .001" of brass to spring back for correct neck tension. (2) You can also measure the neck wall thickness of your case, multiply by two, add the diameter of your bullet and subtract .002" to .003".

Attributes

- Name: [L.E. WILSON STEEL NECK SIZER DIE BUSHING .305](#)
- Manufacturer: [L.E. WILSON](#)
- Product no.: 749002367
- Mfr. No.: B-305
- Diameter (in): .305
- Delivery weight: 0.032kg
- Shipping height: 1mm
- Shipping width: 57mm
- Shipping length: 89mm
- UPC: 815145024954

NECK SIZING BUSHINGS L.E. WILSON STEEL NECK SIZER DIE BUSHING .305 Safety Instructions

Introduction

Thank you for choosing the NECK SIZING BUSHINGS L.E. WILSON STEEL NECK SIZER DIE BUSHING .305. This guide provides important safety instructions and usage guidelines to ensure your safety and the effective use of this product. Please read this document carefully before using the product.

General Safety Guidelines

- Ensure that all safety instructions are followed to prevent accidents and injuries.
- Always use the product in accordance with the manufacturer's instructions.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the product for any signs of wear or damage before use.
- Report any unsafe conditions or incidents to the proper authorities.

Specific Safety Precautions for Use

- Use only the specified size bushing for your reloading needs to ensure proper neck tension.
- Avoid using the bushing if it shows signs of damage or excessive wear.
- When turning the bushing over for tighter sizing, ensure it is securely positioned to prevent slippage.
- Take care when handling brass cases, as they may have sharp edges that can cause cuts or injuries.
- Wear appropriate personal protective equipment, such as safety glasses and gloves, when using this product.

Instructions for Installation and Usage

1. Selecting the Right Bushing:

- Measure the outside neck diameter of your loaded cartridge and subtract .002" to .003" to determine the appropriate bushing size.
- Alternatively, measure the neck wall thickness of your case, multiply by two, add the diameter of your bullet, and subtract .002" to .003".

2. Installing the Bushing:

- Ensure the die is clean and free from debris.
- Insert the selected bushing into the neck sizer die, ensuring it is seated properly.

3. Using the Bushing:

- Place the brass case into the die and apply even pressure to resize the neck.
- If necessary, turn the bushing over with the markings facing down for a tighter fit, especially if the brass has hardened.

4. PostUse Care:

- After use, clean the bushing and die to remove any brass shavings or debris.
- Store the bushing in a safe, dry place to prevent damage.

Disposal Instructions

- Dispose of any damaged or worn bushings in accordance with local regulations.
- Do not dispose of the product in regular household waste. Check for local recycling programs that accept metal components.

Contact Information for Further Support

For any safety inquiries or further assistance regarding the NECK SIZING BUSHINGS L.E. WILSON STEEL NECK SIZER DIE BUSHING .305, please refer to the manufacturer's website or contact your local retailer.

Conclusion

By following these safety instructions and guidelines, you can ensure a safe and effective reloading experience with the NECK SIZING BUSHINGS L.E. WILSON STEEL NECK SIZER DIE BUSHING .305. Always prioritize safety and enjoy your reloading activities responsibly.
