

NECK SIZING BUSHINGS - L.E. WILSON STEEL NECK SIZER DIE BUSHING .307

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Hardened stainless steel neck bushing from L.E. Wilson. Wilson makes their bushings in .001" increments. The size marked on them refers to the middle of the bushing, which is reamed with a .003" taper. Since the case neck only reaches the middle, a slightly tighter sizing can be achieved by turning the bushing over, with the markings facing toward the case (markings facing down). This is mainly an emergency step to be taken if the brass has hardened, springing back more, and will no longer hold the bullet; or for fine-tuning the sizing to provide less additional "squeeze" than using the next smaller bushing in the normal way. Made to similar specs to the Redding neck bushings. Will not interchange with Forster or RCBS dies. Brownells Gun Tech™ Tip: There are two ways to select the steel neck bushings you need: (1) Measure the outside neck diameter of your loaded cartridge and subtract .002" to .003". This allows approximately .001" of brass to spring back for correct neck tension. (2) You can also measure the neck wall thickness of your case, multiply by two, add the diameter of your bullet and subtract .002" to .003".

Attributes

- Name: [L.E. WILSON STEEL NECK SIZER DIE BUSHING .307](#)
- Manufacturer: [L.E. WILSON](#)
- Product no.: 749002369
- Mfr. No.: B-307
- Diameter (in): .307
- Delivery weight: 0.032kg
- Shipping width: 57mm
- Shipping length: 89mm
- UPC: 815145024978

NECK SIZING BUSHINGS L.E. WILSON STEEL NECK SIZER DIE BUSHING .307 Safety Instruction Guide

Introduction

Thank you for choosing the L.E. Wilson Steel Neck Sizer Die Bushing .307. This product is designed to provide precise neck sizing for your reloading needs. To ensure safe and effective use, please read and follow this safety instruction guide carefully.

General Safety Guidelines

- Always ensure the product is used in accordance with the manufacturer's instructions.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the product for any signs of wear or damage before use.
- Report any unsafe products or accidents to the appropriate authorities.
- Check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Use protective eyewear when handling and using the neck sizing bushing.
- Avoid using excessive force when resizing cases to prevent damage to the bushing or cases.
- Ensure that the bushing is properly seated in the die before use.
- Do not attempt to modify or alter the bushing in any way.
- If the brass has hardened or is difficult to resize, consider turning the bushing over for tighter sizing, but only as an emergency measure.

Instructions for Installation and Usage

1. Selecting the Correct Bushing Size:

- Measure the outside neck diameter of your loaded cartridge.
- Subtract .002" to .003" from this measurement for optimal neck tension.
- Alternatively, measure the neck wall thickness of your case, multiply by two, add the diameter of your bullet, and subtract .002" to .003".

2. Installing the Bushing:

- Ensure the die is clean and free of debris.
- Insert the bushing into the die, ensuring it is seated correctly.
- Tighten any locking mechanisms as per the die's instructions.

3. Using the Bushing:

- Place the case in the shell holder and raise the ram to bring the case into contact with the bushing.
- Apply steady pressure to resize the case neck.
- Lower the ram and remove the resized case.

4. PostUse Inspection:

- Inspect the resized cases for any signs of damage or improper sizing.
- Clean the bushing after use to maintain its performance and longevity.

Disposal Instructions

- Dispose of any damaged or worn bushings in accordance with local regulations for metal waste.
- Do not throw the bushing in regular household waste.

Contact Information for Further Support

For any safety inquiries or additional support regarding the L.E. Wilson Steel Neck Sizer Die Bushing .307, please refer to the contact information provided by the retailer or manufacturer.

By following these guidelines and instructions, you can ensure a safe and effective experience with your L.E. Wilson Steel Neck Sizer Die Bushing .307. Thank you for your attention to safety.
