

NECK SIZING BUSHINGS - L.E. WILSON STEEL NECK SIZER DIE BUSHING .251

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Hardened stainless steel neck bushing from L.E. Wilson. Wilson makes their bushings in .001" increments. The size marked on them refers to the middle of the bushing, which is reamed with a .003" taper. Since the case neck only reaches the middle, a slightly tighter sizing can be achieved by turning the bushing over, with the markings facing toward the case (markings facing down). This is mainly an emergency step to be taken if the brass has hardened, springing back more, and will no longer hold the bullet; or for fine-tuning the sizing to provide less additional "squeeze" than using the next smaller bushing in the normal way. Made to similar specs to the Redding neck bushings. Will not interchange with Forster or RCBS dies. Brownells Gun Tech™ Tip: There are two ways to select the steel neck bushings you need: (1) Measure the outside neck diameter of your loaded cartridge and subtract .002" to .003". This allows approximately .001" of brass to spring back for correct neck tension. (2) You can also measure the neck wall thickness of your case, multiply by two, add the diameter of your bullet and subtract .002" to .003".

Attributes

- Name: [L.E. WILSON STEEL NECK SIZER DIE BUSHING .251](#)
- Manufacturer: [L.E. WILSON](#)
- Product no.: 749002393
- Mfr. No.: B-251
- Diameter (in): .251
- Delivery weight: 0.032kg
- Shipping height: 1mm
- Shipping width: 57mm
- Shipping length: 89mm
- UPC: 815145024411

NECK SIZING BUSHINGS L.E. WILSON STEEL NECK SIZER DIE BUSHING .251 Safety Instructions

Introduction

Thank you for choosing the NECK SIZING BUSHINGS L.E. WILSON STEEL NECK SIZER DIE BUSHING .251. This product is designed to assist you in achieving precise neck sizing for your reloading needs. It is important to follow the safety instructions outlined in this guide to ensure safe and effective use.

General Safety Guidelines

- Always ensure that the product is used in accordance with the manufacturer's instructions.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the bushing for any signs of wear or damage before use.
- Use the product only for its intended purpose; do not attempt to modify or misuse it.
- In case of any malfunction or unsafe condition, stop using the product immediately and seek assistance.

Specific Safety Precautions for Use

- Wear appropriate safety gear, including safety glasses, when using the neck sizing bushing.
- Ensure that your workspace is clean and organized to prevent accidents.
- Do not exceed the recommended sizing limits; excessive sizing can lead to case neck failure.
- If you notice any unusual resistance while sizing, stop immediately to avoid damaging the bushing or the case.
- Ensure that the markings on the bushing are oriented correctly during use to achieve the desired sizing.

Instructions for Installation and Usage

1. Measuring for Correct Size

- Measure the outside neck diameter of your loaded cartridge.
- Subtract .002" to .003" from this measurement to determine the appropriate bushing size.
- Alternatively, measure the neck wall thickness of your case, multiply by two, add the diameter of your bullet, and subtract .002" to .003".

2. Installation

- Ensure that the reloading die is clean and free from any debris.
- Insert the neck sizing bushing into the die, ensuring that it is seated properly.
- Secure the die in your reloading press according to the manufacturer's instructions.

3. Using the Bushing

- Place a case in the reloading press and lower the ram to engage the bushing.
- Apply steady and even pressure to size the neck of the case.
- If necessary, turn the bushing over with the markings facing down for tighter sizing, particularly if the brass has hardened.

4. PostUse Care

- After use, clean the bushing with a soft cloth to remove any residue.
- Store the bushing in a dry and safe place to prevent damage.

Disposal Instructions

- Dispose of any damaged or worn bushings in accordance with local regulations.
- Do not throw the product in general waste; check with your local waste management authority for proper disposal methods.

Contact Information for Further Support

For any inquiries or concerns regarding the NECK SIZING BUSHINGS L.E. WILSON STEEL NECK SIZER DIE BUSHING .251, please refer to the contact information provided on the packaging or the manufacturer's website.

By following these safety instructions, you can ensure a safe and effective reloading experience with your NECK SIZING BUSHINGS L.E. WILSON STEEL NECK SIZER DIE BUSHING .251. Thank you for your attention to safety.
